

# Connect4

IxD 330 Design for Social Change

Nick Pizzo and Julia Lyons

# Problem Statement

The problem occurs between the ages of 14 and 18 years old. The 4H program struggles with retaining and recruiting the high schoolers who show a lack of interest.

# Research

Over 10 weeks we've had...

11 Interviews

7 Boys - 4 Girls

2 4H Members

9 Kids unaware of 4H

# Research Analysis

2 types of high schoolers in interviews

**Type 1**, who only communicate electronically through text, snap chat, and once in a while instagram messenger.

And **type 2**, who communicate through Discord and team speak, and actively speak to each other through calls.

**Type 1** showed signs of their friend groups **falling apart** while **type 2** kept their social relationships **in tact**.

# Meaningful vs Hollow Online Interaction

There are people on the internet who stay friends even when they are millions of miles away. The evolution of the internet has allowed people from the farthest distances to connect closer than ever before.

**Meaningful interactions:** Interactions that immerse the user into what ever is happening online. While these don't replace real life interaction, they strengthen them when they occur.

**Hollow interactions:** Interactions that feature very little depth to the conversation and present a lack of connection in alternative ways.

# Proposed Value Proposition

App for all 4h members to interact.

Non members can also join.

Safe place to communicate where there is a reasonable amount of adult supervision.

# Apathetic Alex

Nerdy teenager with unique hobbies.

Age: 15

Occupation: Student

Location: NY, Long island

Hobby: Video games and watching anime

## Bio:

Alex is a sophomore in high school who has nothing going on after school. She has never heard of the 4h program prior to learning about it while volunteering. She's a studious girl who has interests in video games, computers, and anime.

## Pain points:

Lack of social interaction because of COVID-19

Puberty Changes

Doesn't have many people she can relate to with her set of interests.

She's falling out of touch with any friend she did have because of Covid-19.

## Goals:

Increase overall social interaction in real life and online.

To find something to do after school

Get community service hours for school and get good grades.

Find someone with her similar interest about video games and anime.

"I want something fun to do after school."

## Motivators

Her strong internet presence.

Covid-19 makes her stressed.

Loves discussing her interests.

Not sporty in the slightest.

She's a kind kid so she tries to do good.

## Behaviors

Interacts with people on Twitter and Instagram.

Browses TikTok.

Watches anime.

Plays video games.

Hates sports.

"Look at many likes I got on TikTok."  
"Going to some farm sounds like a waste of time."  
"I hope COVID ends soon."  
"I'm all caught up on the manga."  
"I want people to play games with."

## Says

"Is there anything to do?"  
"This game sucks"  
"Covid makes everything such a hassle."  
"This homework is gonna take all night to finish"  
"I'm so bored"

## Thinks

## Does

Watches Anime  
Sit at home  
Scroll through social media  
Goes to school  
Reads books/manga  
Plays video games

## Feels

Nervous  
Unambitious  
Indifferent  
Lonely  
Introverted  
Lazy

Scenario: Alex is gaining interest in a newly found program that will push her limits and break out of her comfort zone.

Expectations: Gain and develop a long-standing relationship with the program and it's members.

Opportunities:

- Intermingle with other kids her age at 4H
- Learn more about various animals and 4H culture.

### Learn

1. Alex enters class for the school day.
2. She over hears some mutuals talking about a volunteer event and she is reluctant at first to join.
3. After some thought, she decides to get more information on it.

### Opportunity

4. Alex finds out that there's a 4H event at her school during her lunch.
5. She attends the event and is able to converse with many 4H admins and members.
6. After discussing with the members of 4H, she develops interest in the program and can't wait to tell her parents.

### Participate

7. When she gets home, she tells her parents about 4H and her experience at the event.
8. Her parents enthusiastic about their daughter's new found interest, help her enroll in the program.
9. After connecting with them on Facebook, her daughter is eager for her first day.

### Commit

10. When Alex shows up to 4H for the first time, she has the biggest smile on her face.
11. She spends the entire day interacting with the animals and learning many new skills.
12. After a long and tiring day of 4H, she leaves happier than she arrived and is energetic about the next meeting.

**Story Board**

THIS IS ALEX. SHE IS A STUDIOUS SOPHOMORE IN HIGH SCHOOL. SHE ENJOYS THINGS LIKE VIDEO GAMES AND ANIME, WHICH MAKES THINGS LIKE SPORTS AND MOST AFTER SCHOOL ACTIVITES SEEM UNINTERESTING TO HER.

BECAUSE OF COVID, ALEX FEELS THAT HER FRIEND GROUPS ARE FALLING APART. SHE NEVER SEES THEM AFTER SCHOOL ANYMORE, AND THE FRIENDS SHE DOES HAVE ALSO AREN'T VERY TECH SAVY, SO SHE ENJOYS HER HOBBIES ALONE FOR THE MOST PART.

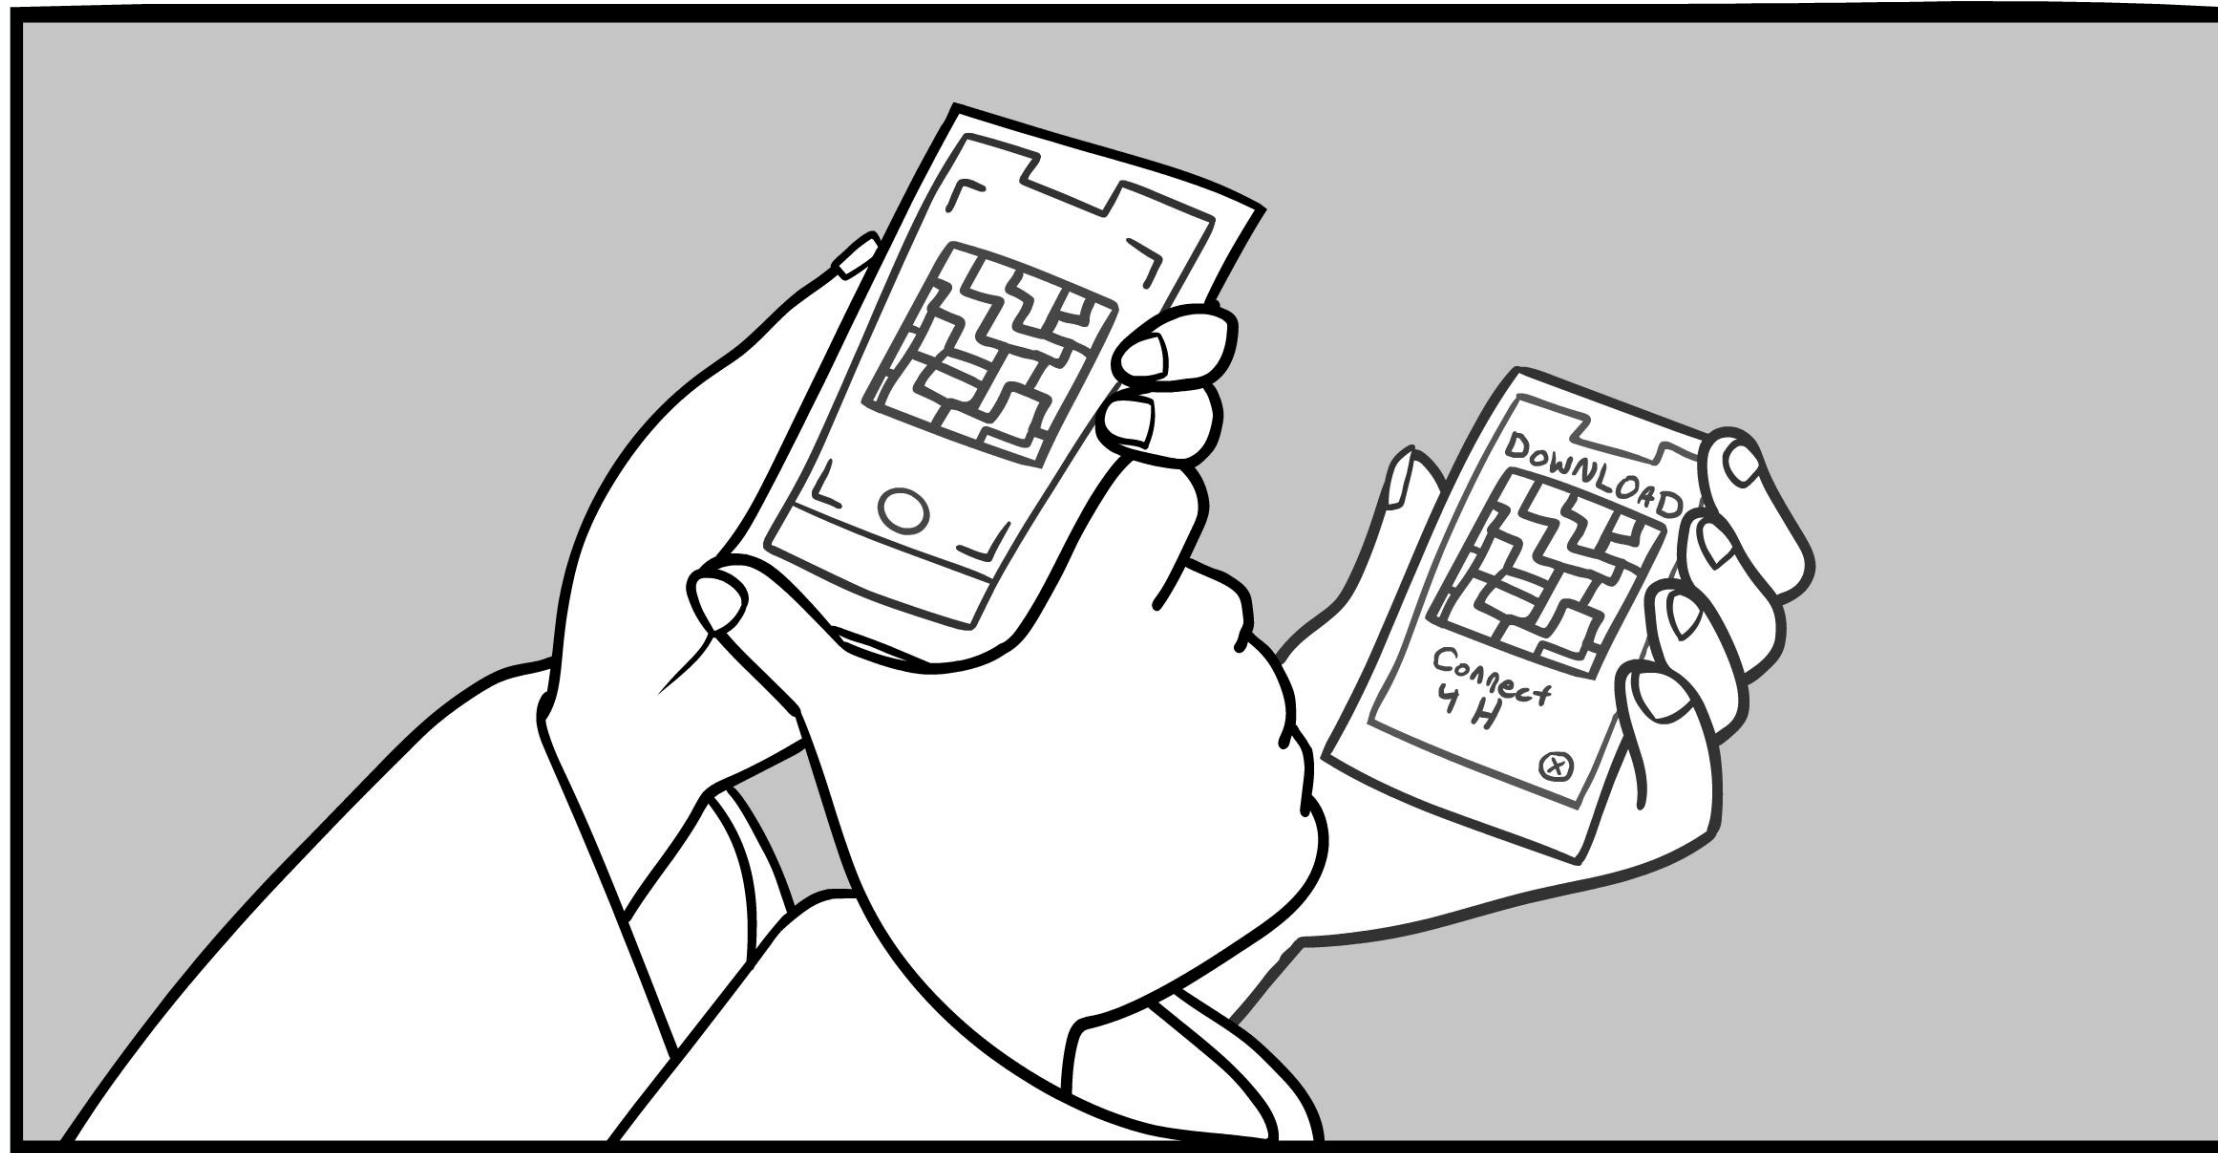

ONE DAY IN CLASS, SHE OVER HEARS HER CLASS MATE TALKING ABOUT A VOLUNTEER EVENT THAT'S HAPPENING SOME TIME AFTER SCHOOL. SHE GETS INVITED SO SHE CAN GET SOME VOLUNTEER HOURS.

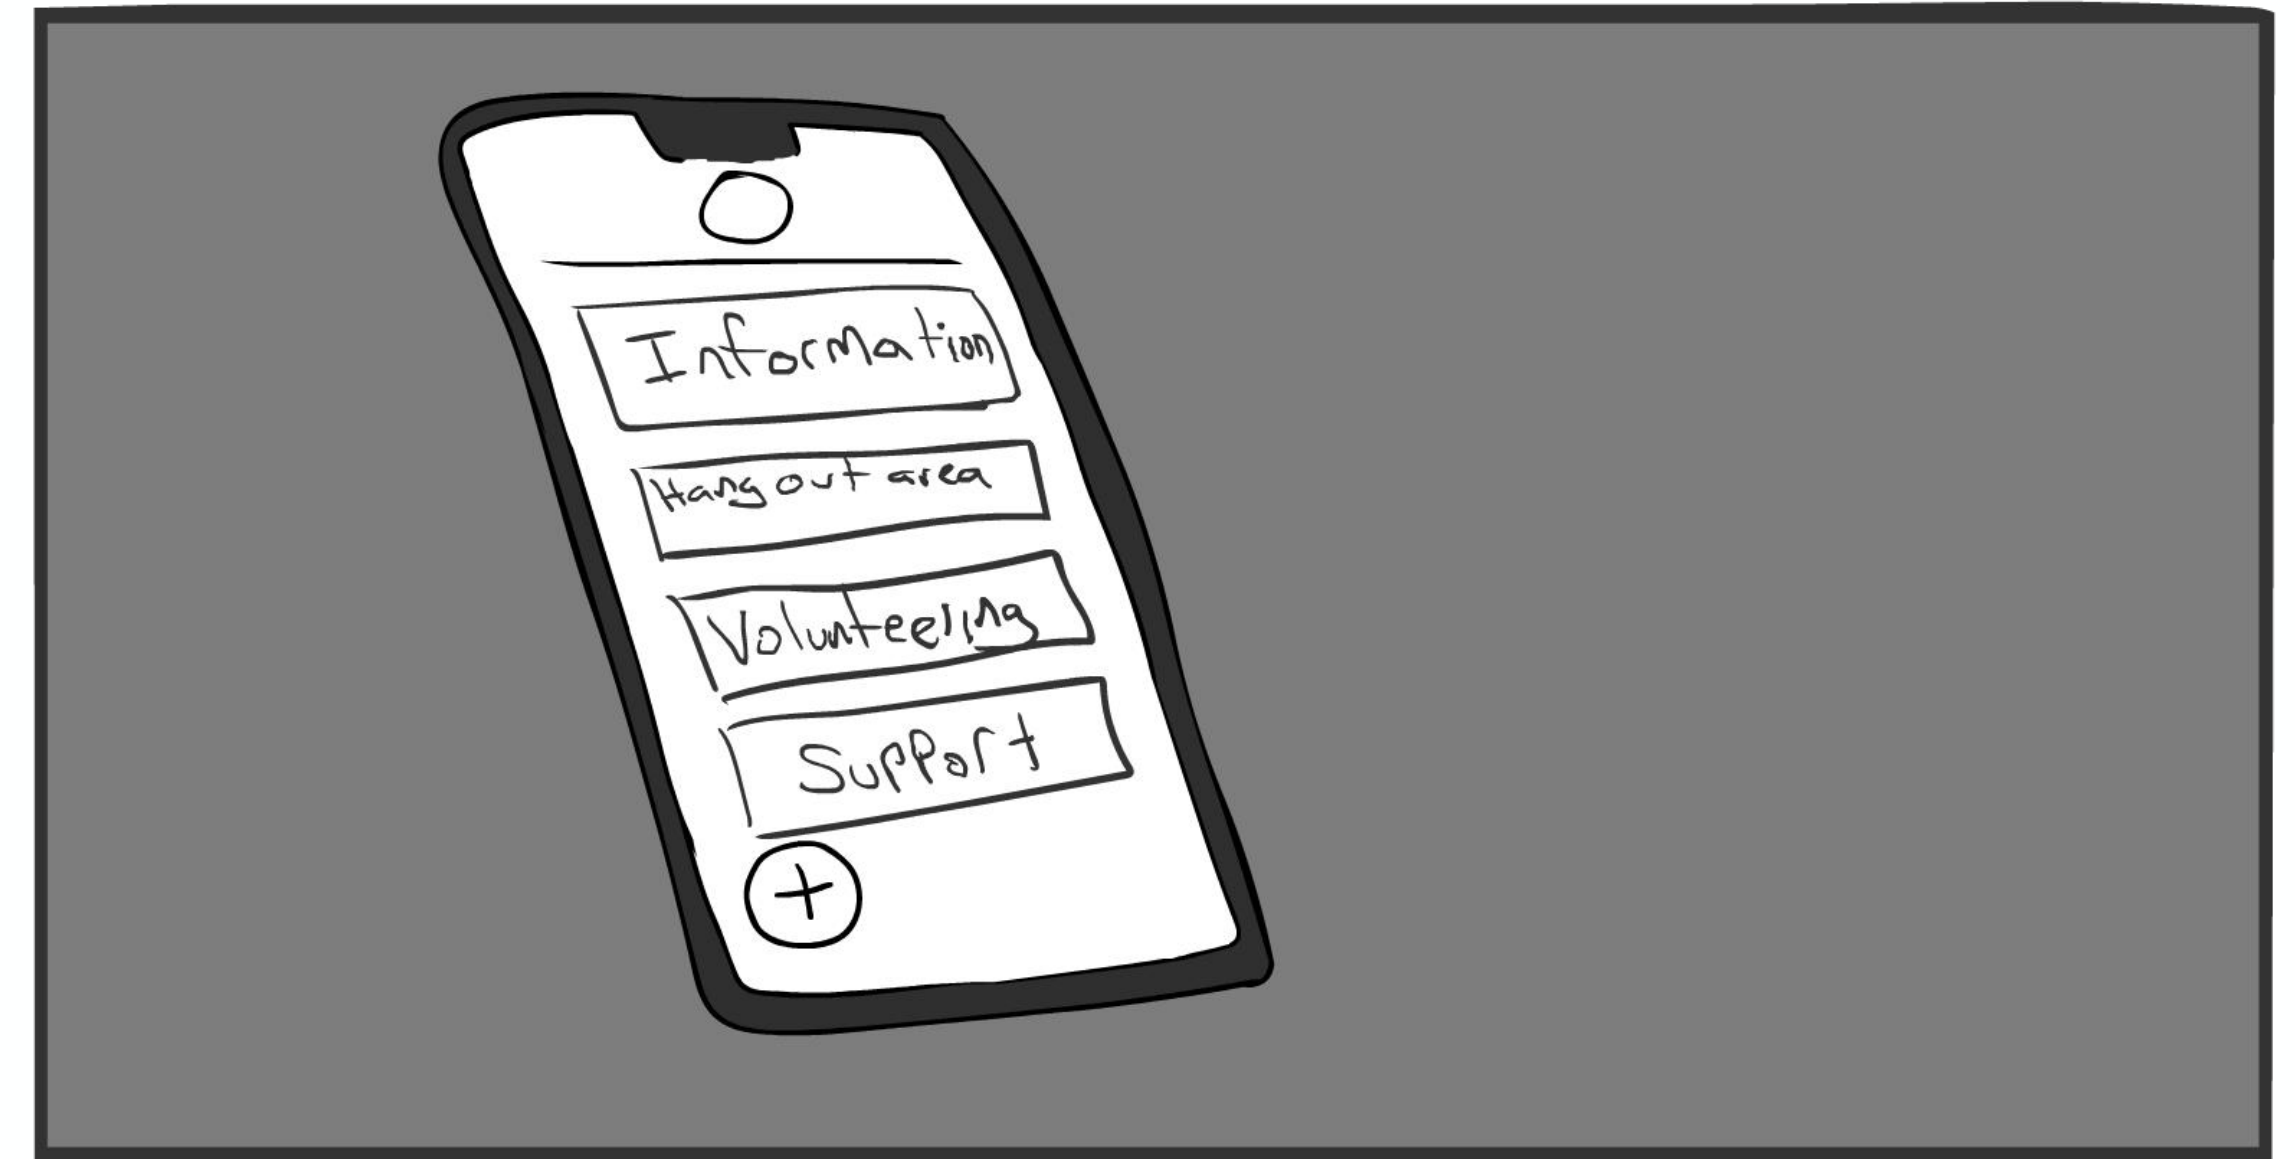

IN ORDER TO PARTICIPATE SHE IS INFORMED SHE NEEDS TO SIGN UP ON THE 4H APP. HER CLASSMATE WOULD GO INTO THE SECTION OF THE CONNECT 4 APP WHERE YOU CAN PULL UP A QR CODE, AND ALEX SCANS IT TO DOWNLOAD.

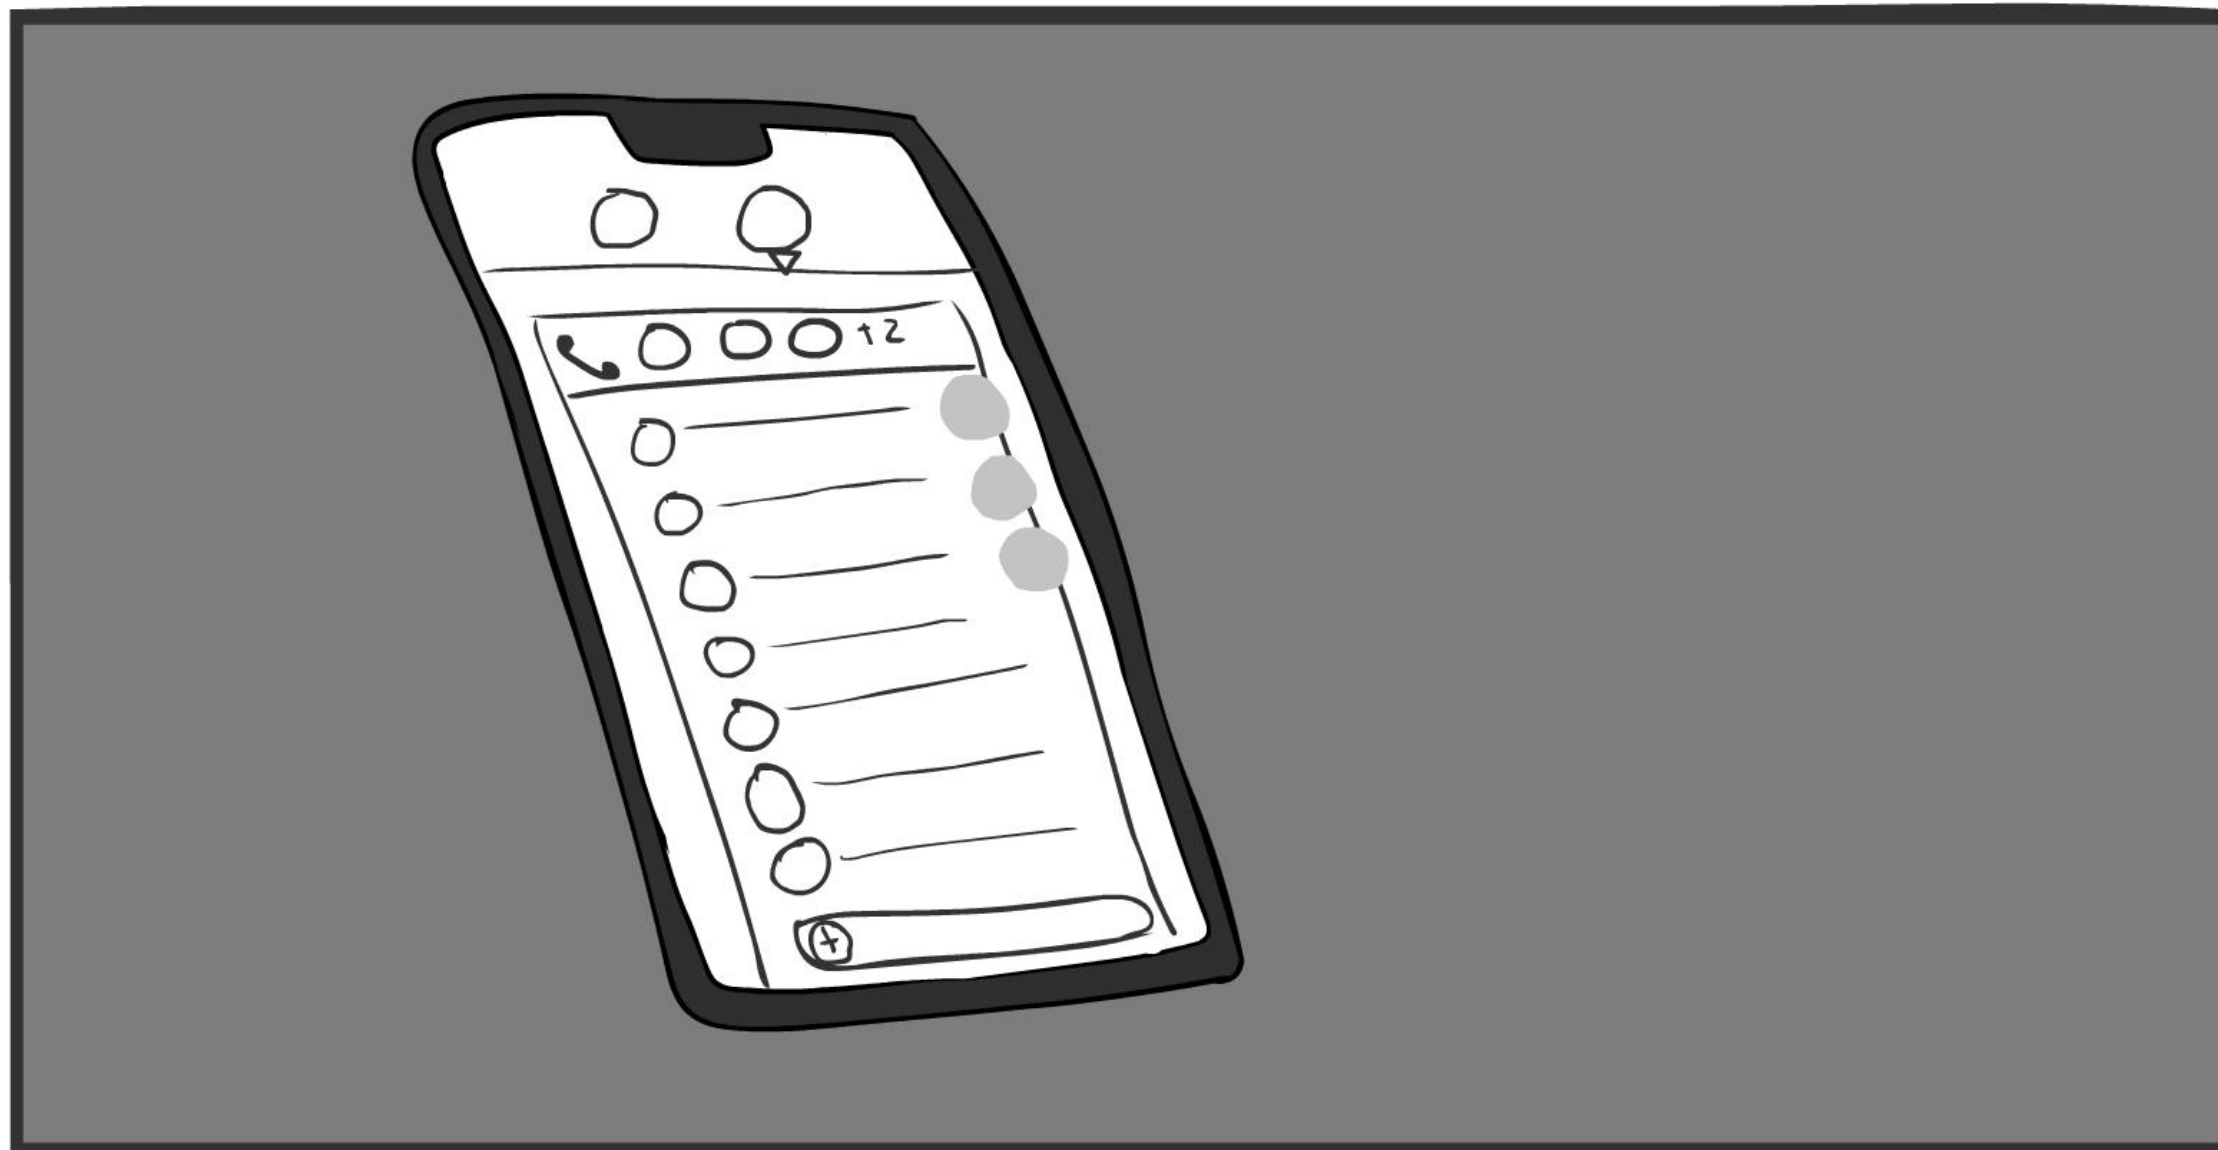

IN ORDER TO PARTICIPATE SHE IS INFORMED SHE NEEDS TO SIGN UP ON THE 4H APP. HER CLASSMATE WOULD GO INTO THE SECTION OF THE CONNECT 4 APP WHERE YOU CAN PULL UP A QR CODE, AND ALEX SCANS IT TO DOWNLOAD.

SHE GOES STRAIGHT TO THE VOLUNTEER BUTTON WHICH IS IN THE MIDDLE OF THE LANDING PAGE, AND INSERTS HER INFORMATION IN ORDER TO SIGN UP.

SHE ALSO SEES THE APP HAS A SECTION WHERE SHE SEES PEOPLE HAVING GENERAL DISCUSSIONS ABOUT VARIOUS TOPICS. THERE'S A GENERAL, AND DIFFERENT CHATS ABOUT VIDEO GAMES, AND TV SHOWS. SHE JOINS THE CALL TO SEE WHAT'S UP.

IN THE CALL SHE PLAYS GAMES WITH OTHER KIDS. SHE HAS A FUN NIGHT OF GAMING AND SHE BONDS A LITTLE WITH THE KIDS SHE'S MET ON THE APP, EVEN THOUGH SHE'S NOT IN THE PROGRAM YET.

A FEW DAYS LATER SHE GOES TO THE VOLUNTEERING EVENT AND HAS A GREAT TIME. SHE WAS ORIGINALLY DREADING NOT HAVING ANYONE TO TALK TO BECAUSE A LOT OF THE KIDS ARE FROM DIFFERENT SCHOOLS, BUT SHE RECOGNIZES SOME KIDS FROM THE GROUP CHATS IN THE CONNECT 4H APP.

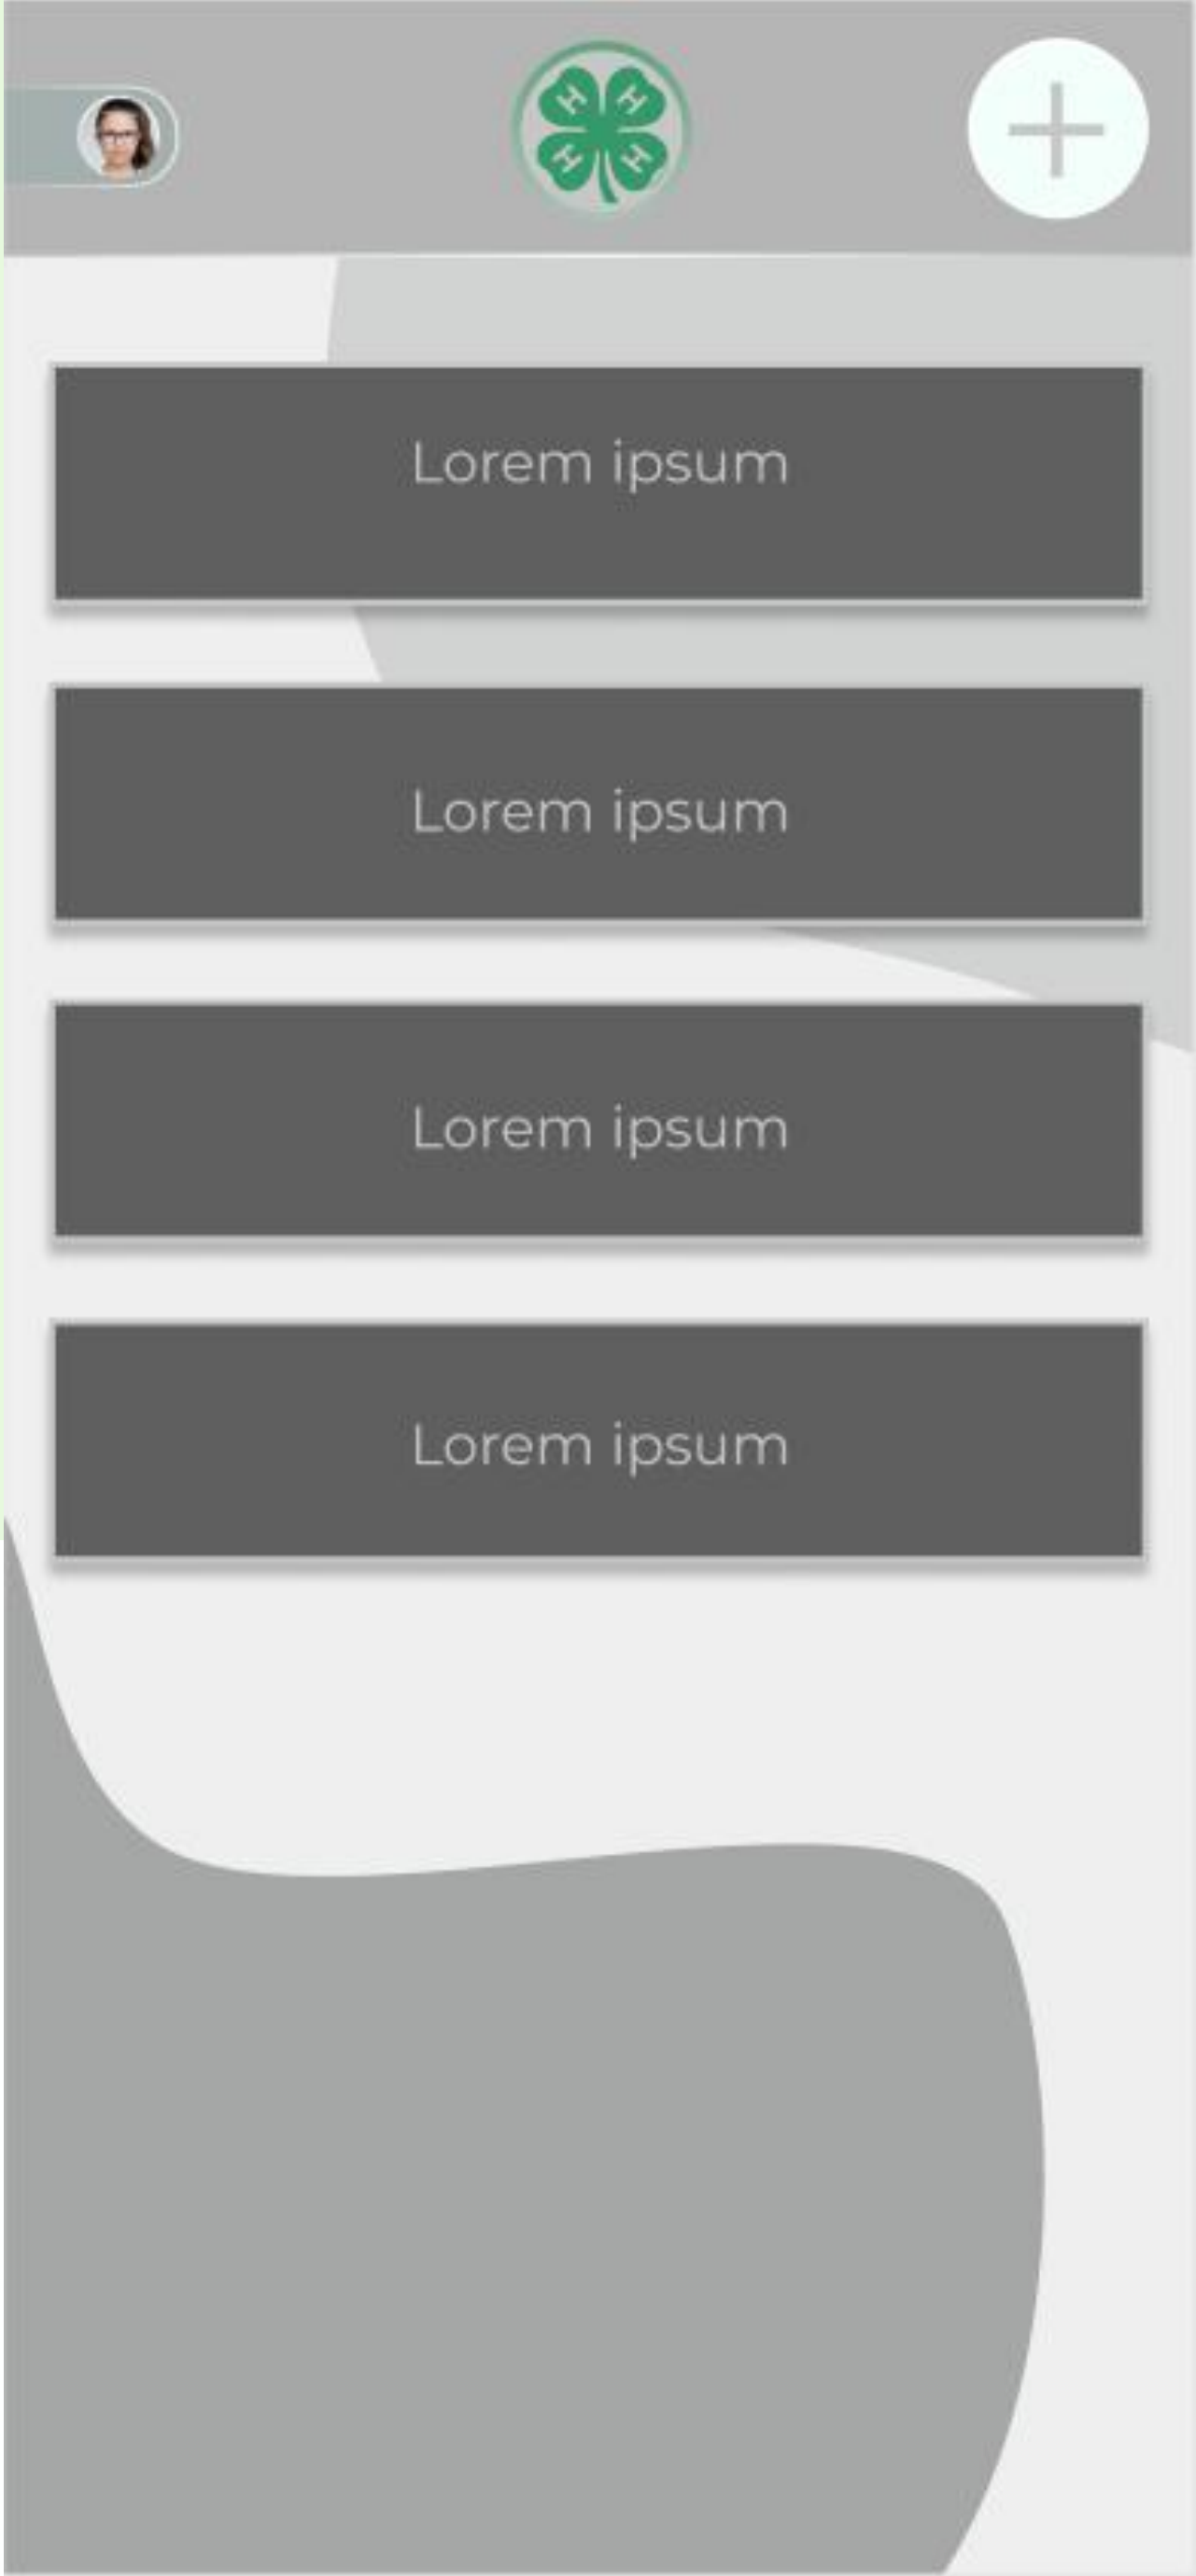

ONCE THE EVENT IS DONE, SHE WOULD CLOCK IN HER HOURS VIA THE APP, AND TAKES A SELFIE AS A QUIRKY LITTLE WAY OF PROVING THAT SHE WAS AT THE EVENT. THE INFORMATION GOES STRAIGHT TO THE EVENT ORGANIZER.

AFTER GOING TO THE EVENT AND SPENDING MORE TIME IN THE GROUP, MAKING FRIENDS AND PLAYING GAMES, SHE ASKS HER MOM IF SHE CAN JOIN THE 4H PROGRAM SO THAT SHE CAN BE MORE INVOLVED WITH HER FRIENDS.

Recruitment

# Interactive Prototype

Recruitment

# Splash Page

 This is the loading page while pulling up the app.

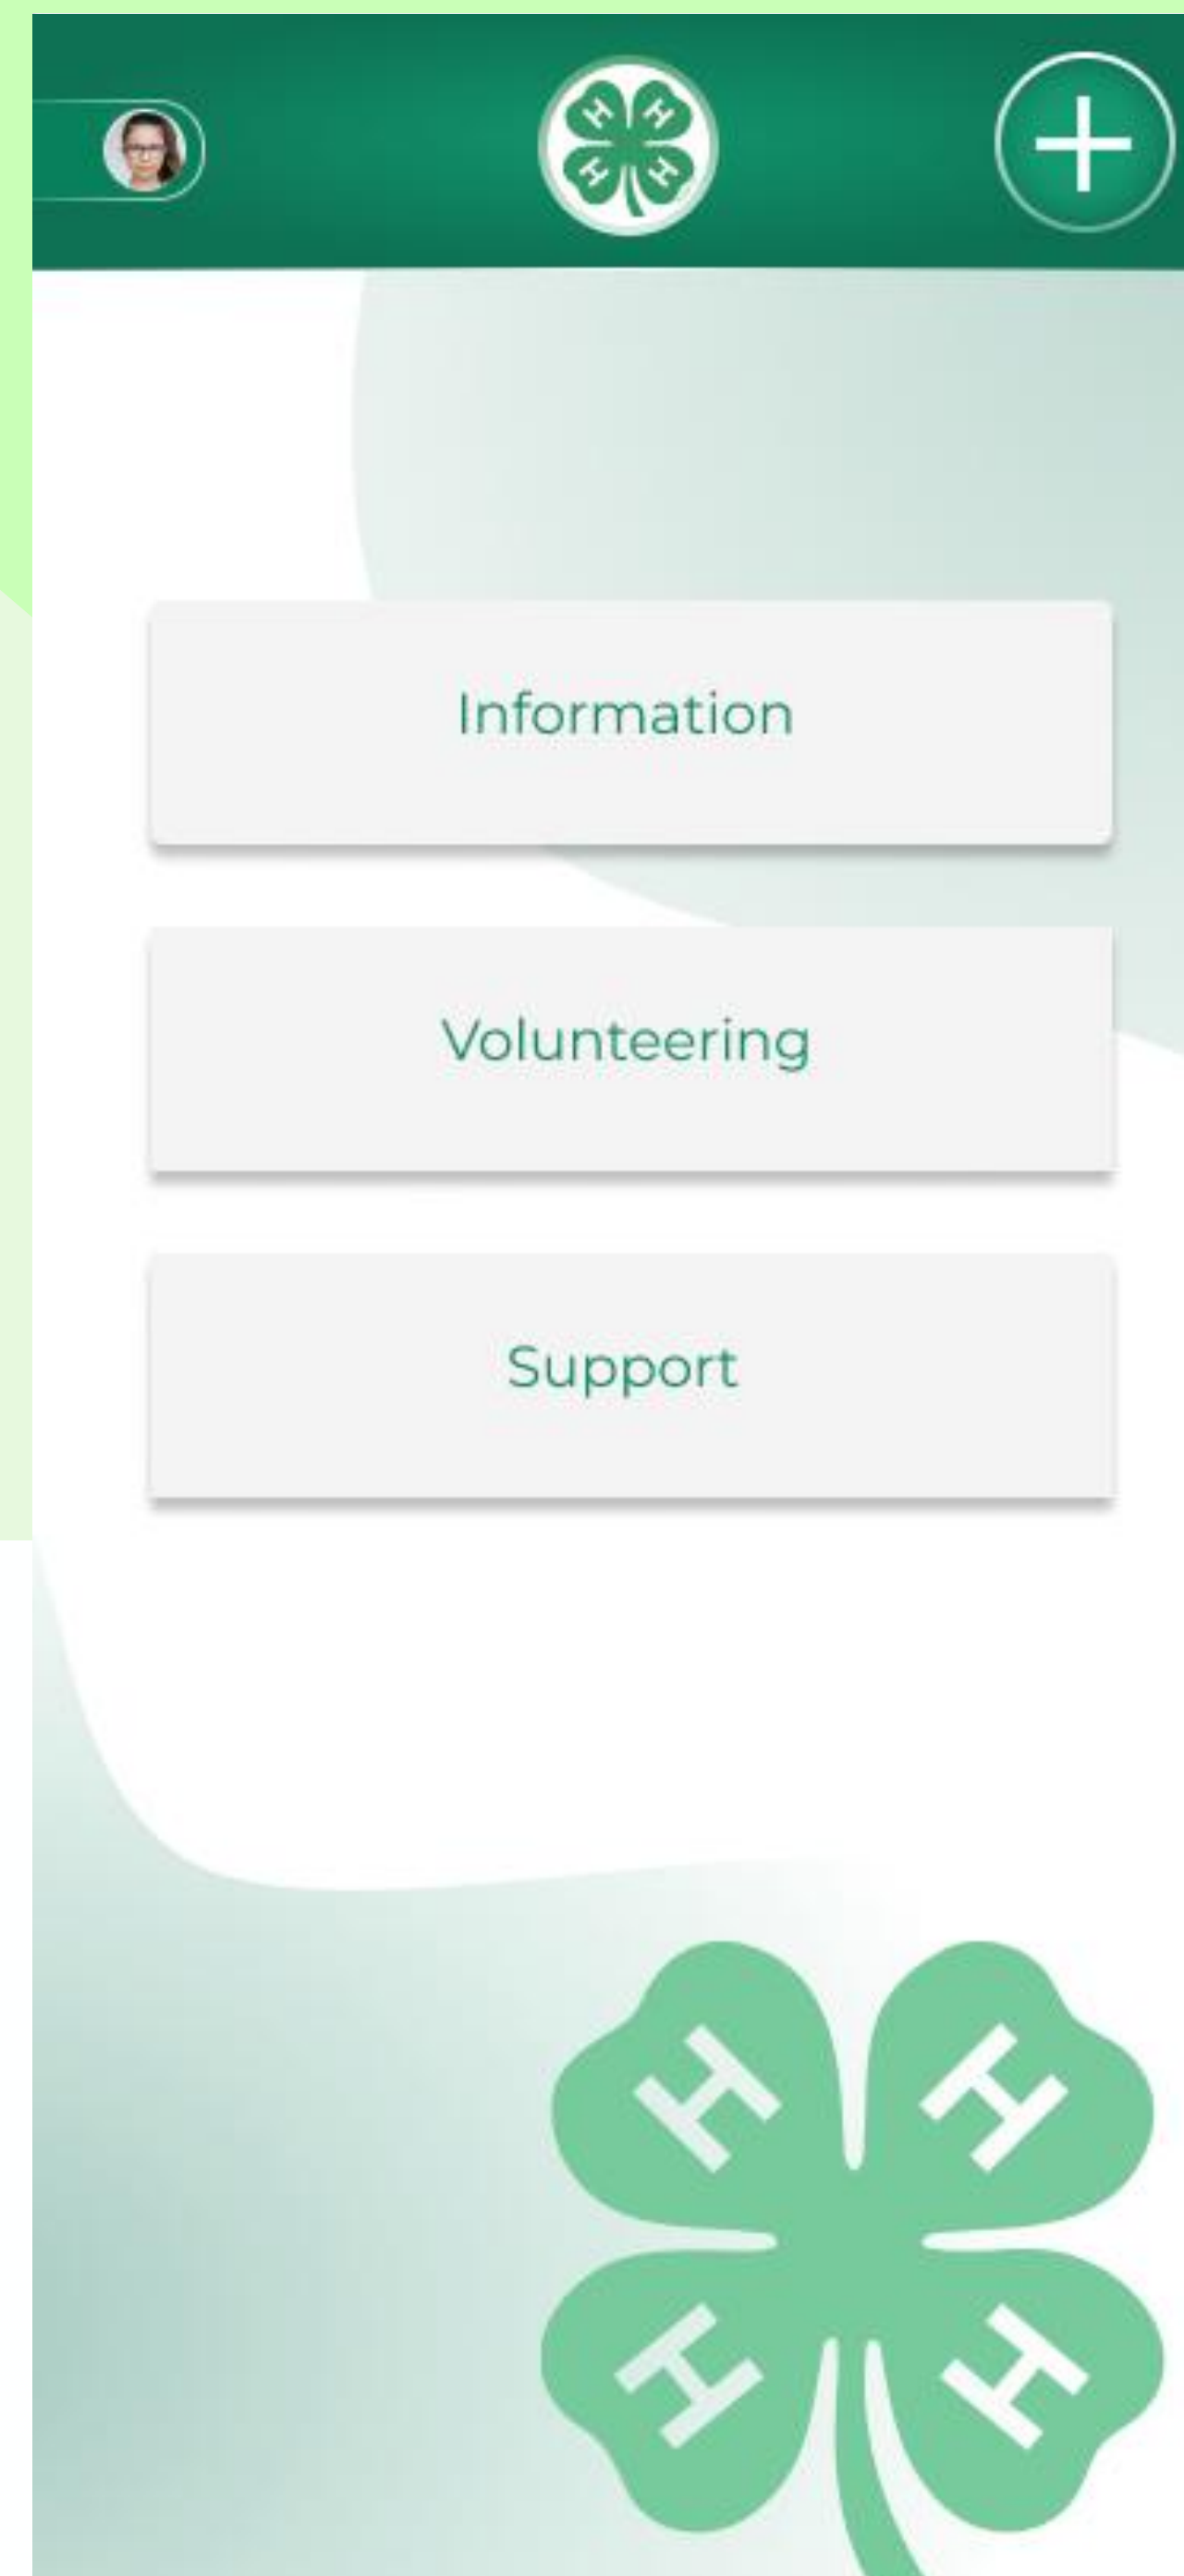

# Landing Page

 Before joining any groups, first time users see these options displayed.

 Most will go to the volunteering page first, which is why it's in the middle of the screen.

Recruitment

# Volunteering Event Info

 The bottom left shows all of the kids who have RSVP'd coming to the most recent volunteering event. You can click on this and see their profiles.

 Clicking on the bottom right button will bring you to the appropriate place to sign up for the event.

# Pre-screening for Covid-19

 This is a mandatory Covid-19 form every kid needs to fill out before coming to keep everyone safe.

Volunteering

PRE SCREENING FOR COVID 19

Do you / they have a fever or have you/they felt hot or feverish recently? (14-21 days?)

Are you/they having shortness of breath or other difficulties breathing?

Do you/they have a cough?

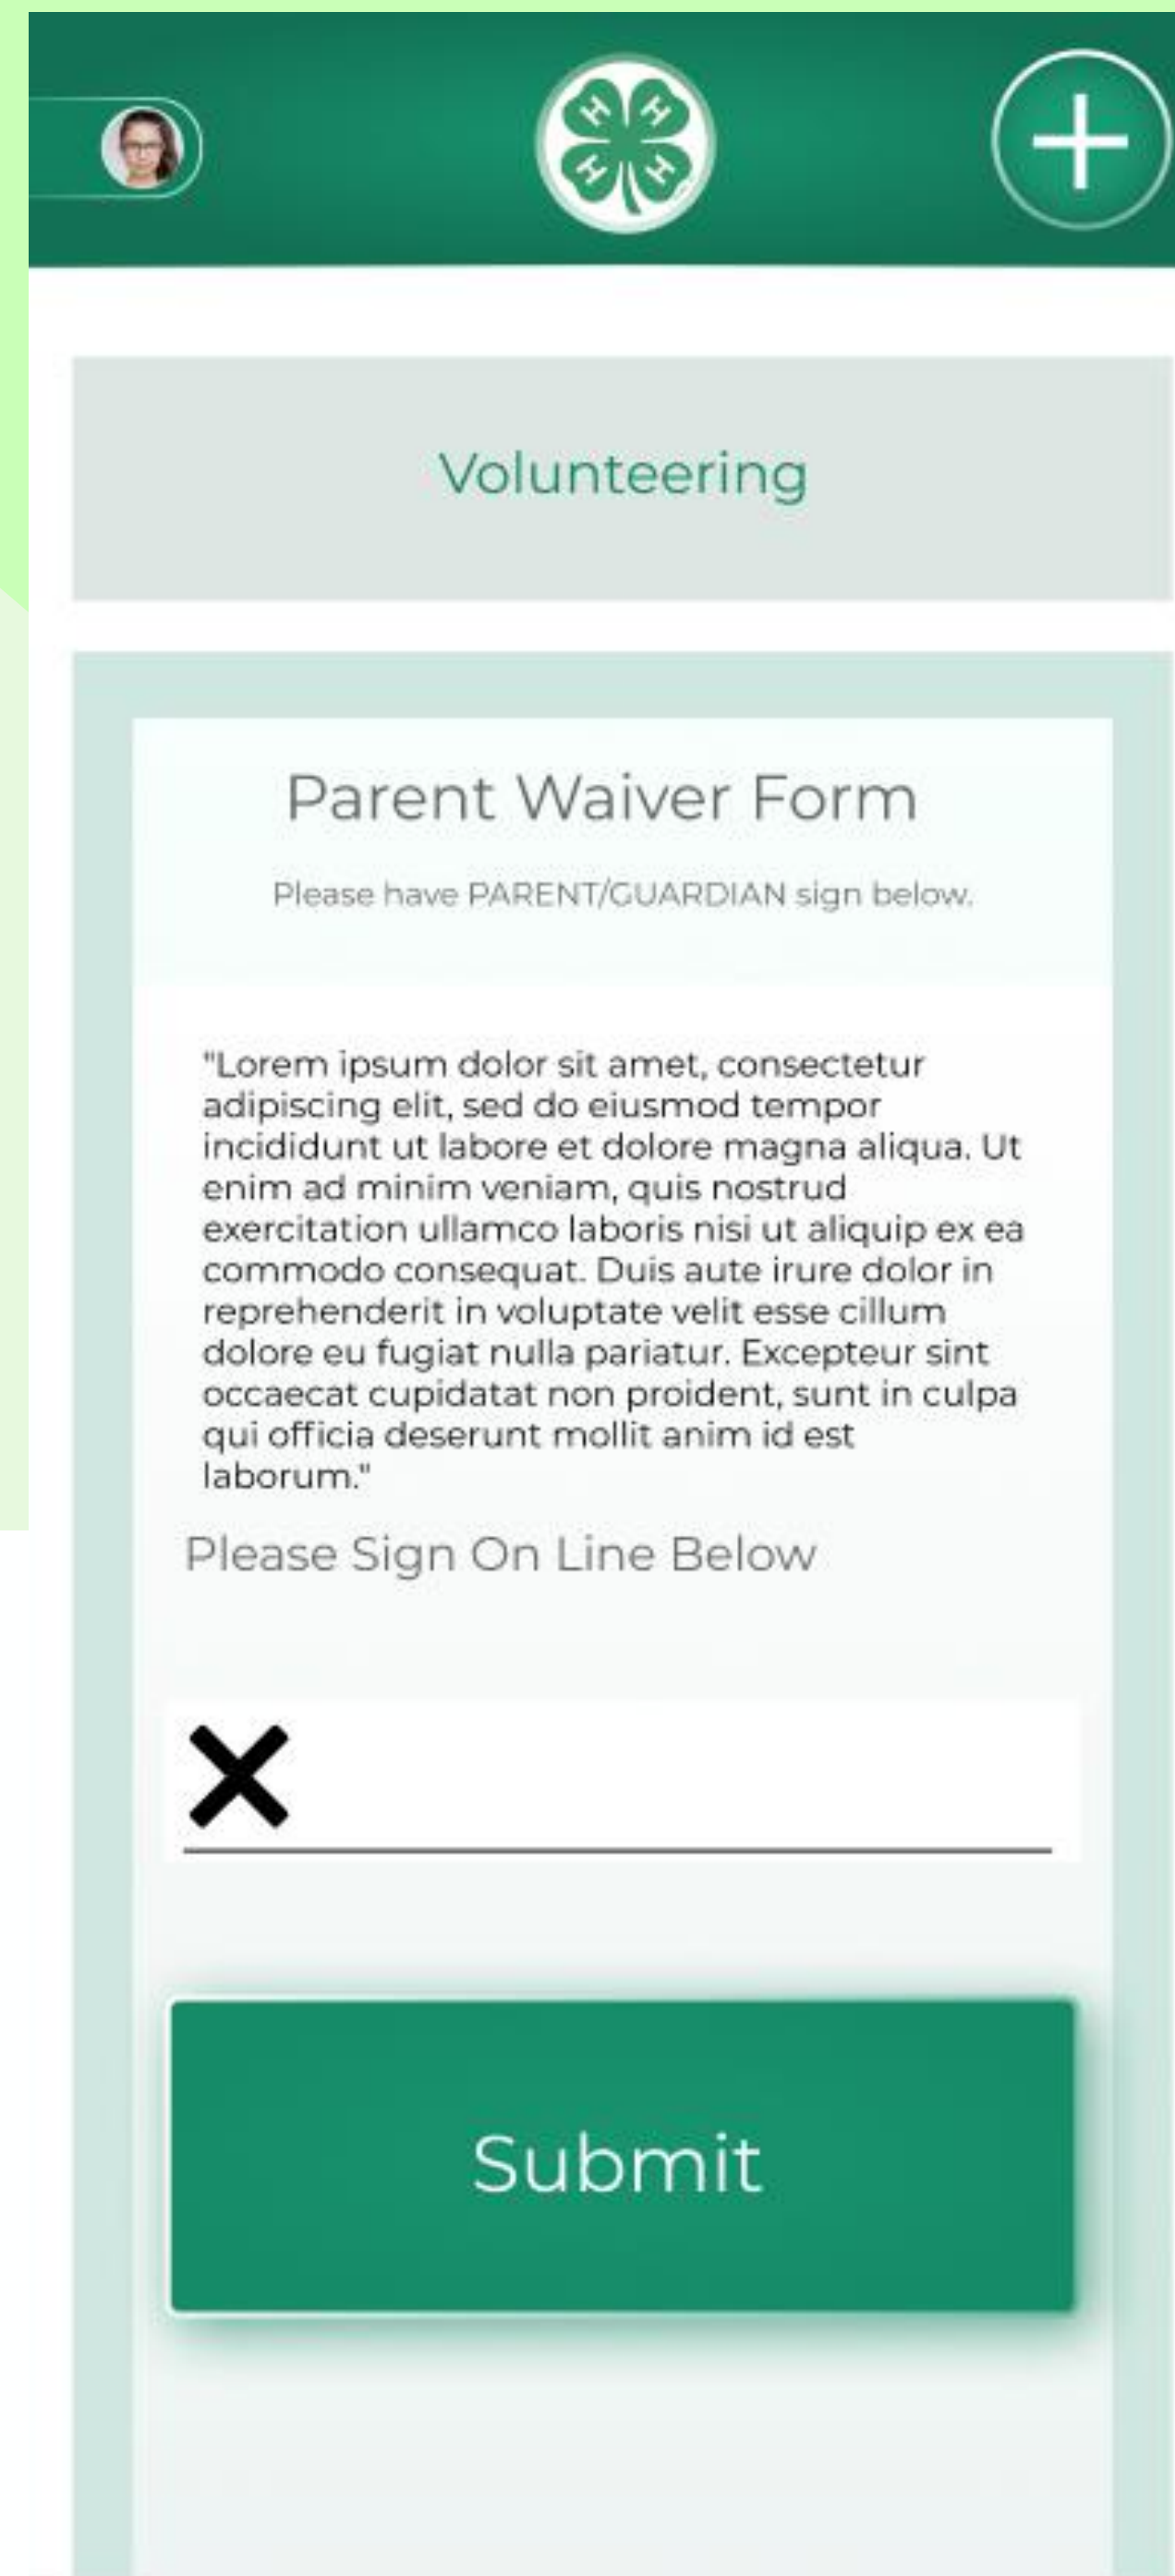

Any other flu-like symptoms, such as gastro intestinal upset, headache or Fatigue?

Are you / they under the age of 18?

# Parent Waiver Form

 These are the forms for parents to sign.

 The signature can be written on the app electronically. It will not save so kids can't use their parents signature for anything.

The screenshot shows a mobile application interface. At the top, there is a dark green header with a profile picture, a four-leaf clover logo, and a plus sign. Below the header is a grey bar with the word "Volunteering" in green. The main content area is a white card with a light green border. It has the title "Parent Waiver Form" and a sub-header "Please have PARENT/GUARDIAN sign below." followed by a paragraph of placeholder text. Below the text is a line for a signature with a large "X" icon. At the bottom of the card is a green "Submit" button.

# Additional Information Form

 You enter information here that your profile doesn't cover, like if you need special accommodations.

# Additional Information Form

 You enter information here that your profile doesn't cover, like if you need special accommodations.

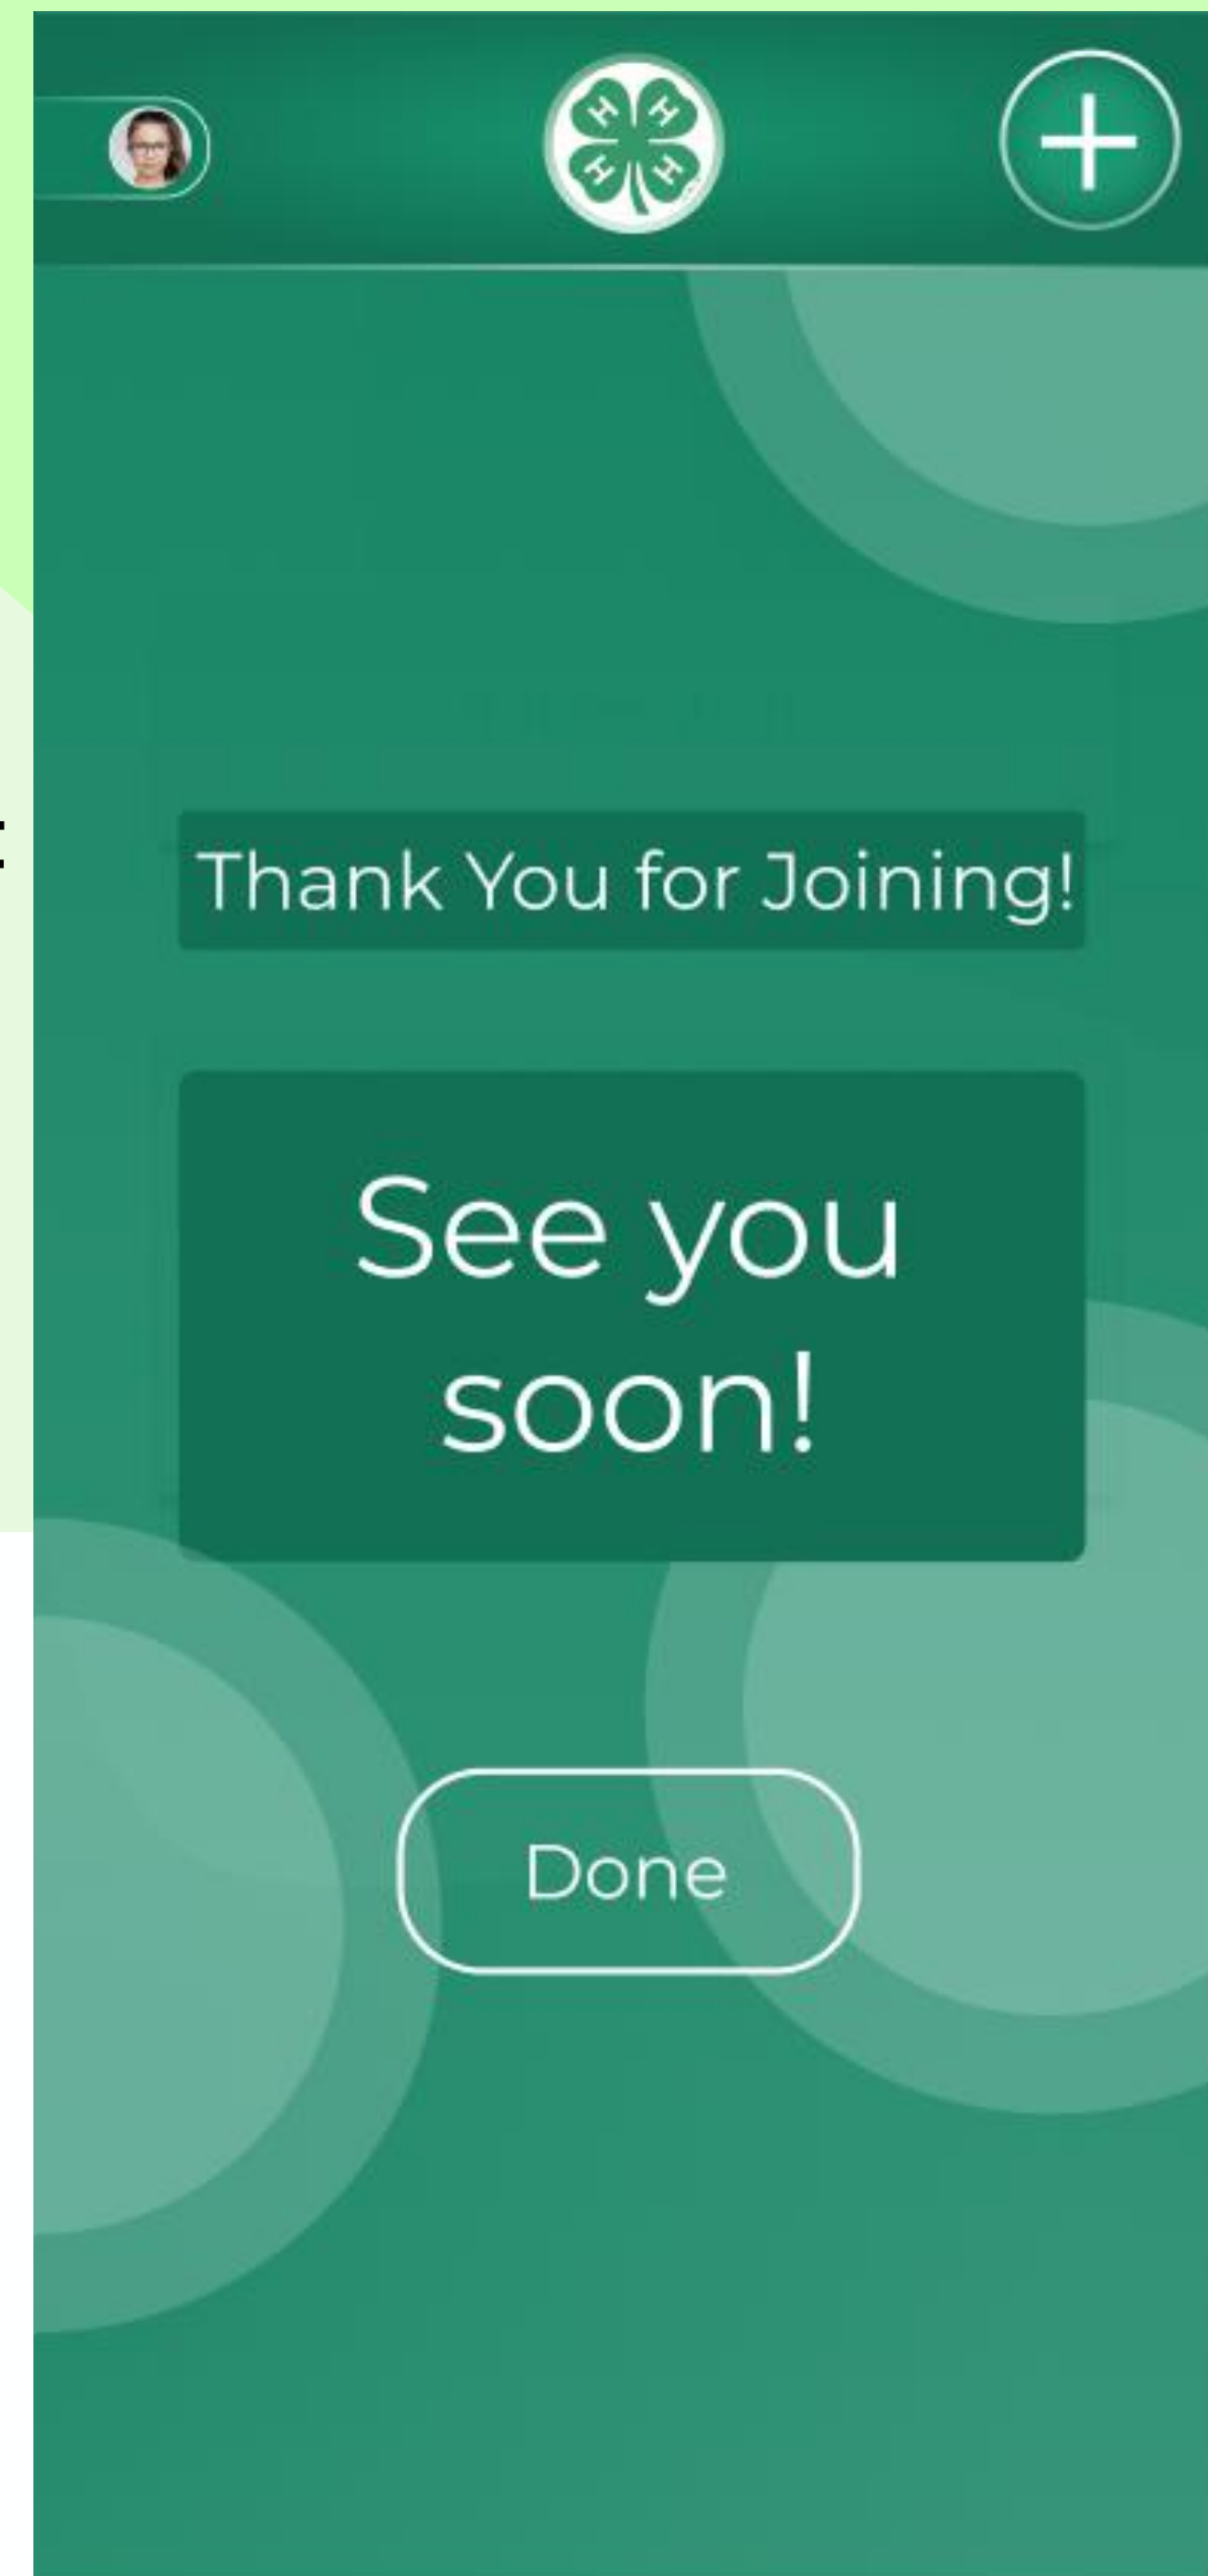

The screenshot shows a mobile application interface. At the top, there is a dark green header bar containing a profile picture icon, a four-leaf clover logo, and a plus sign icon. Below the header, a grey bar displays the word 'Volunteering'. The main content area is a white card with a light green border. Inside the card, the title 'Volunteer Signup' is centered, followed by the label 'Event Name'. Below this are four text input fields, each preceded by the placeholder text 'Lorem:'. At the bottom of the card is a large, dark green button with the text 'Sign Up' in white.

Beginnings

# Thank You Screen

 Very simple, if you sign up for a Volunteering event you get this pop up before going back to the home screen.

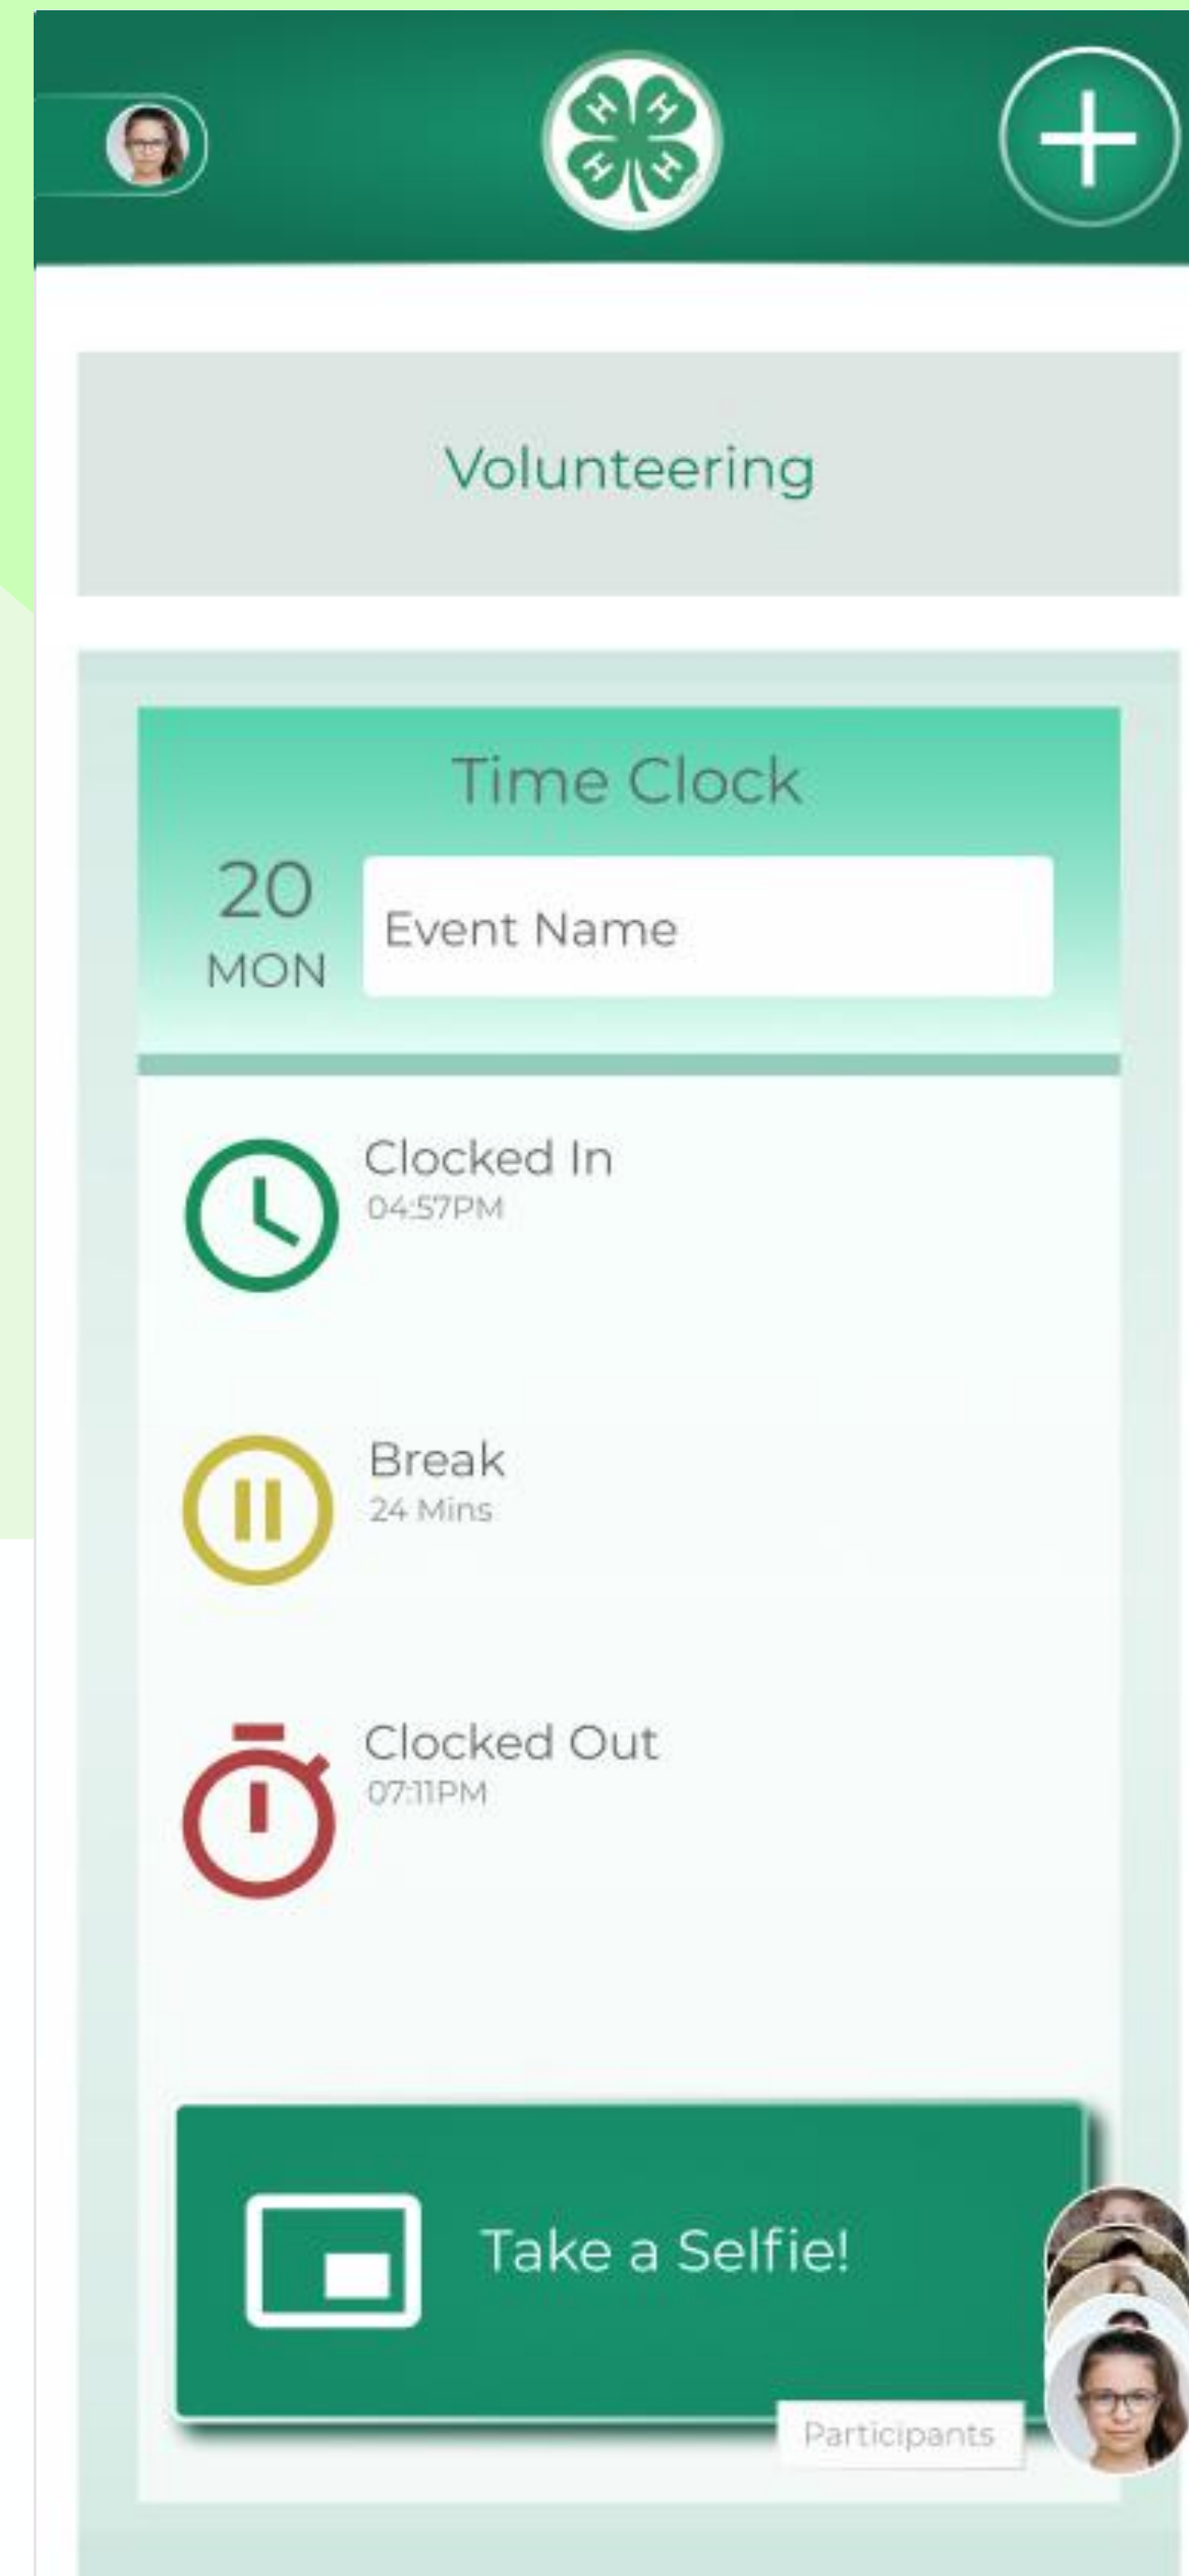

Beginnings

# Clocking into the Event

 This is a handy clocking in function that will let the 4h leaders know their times.

 There's also an "Add a selfie" function as a quirky way of showing proof that you were there.

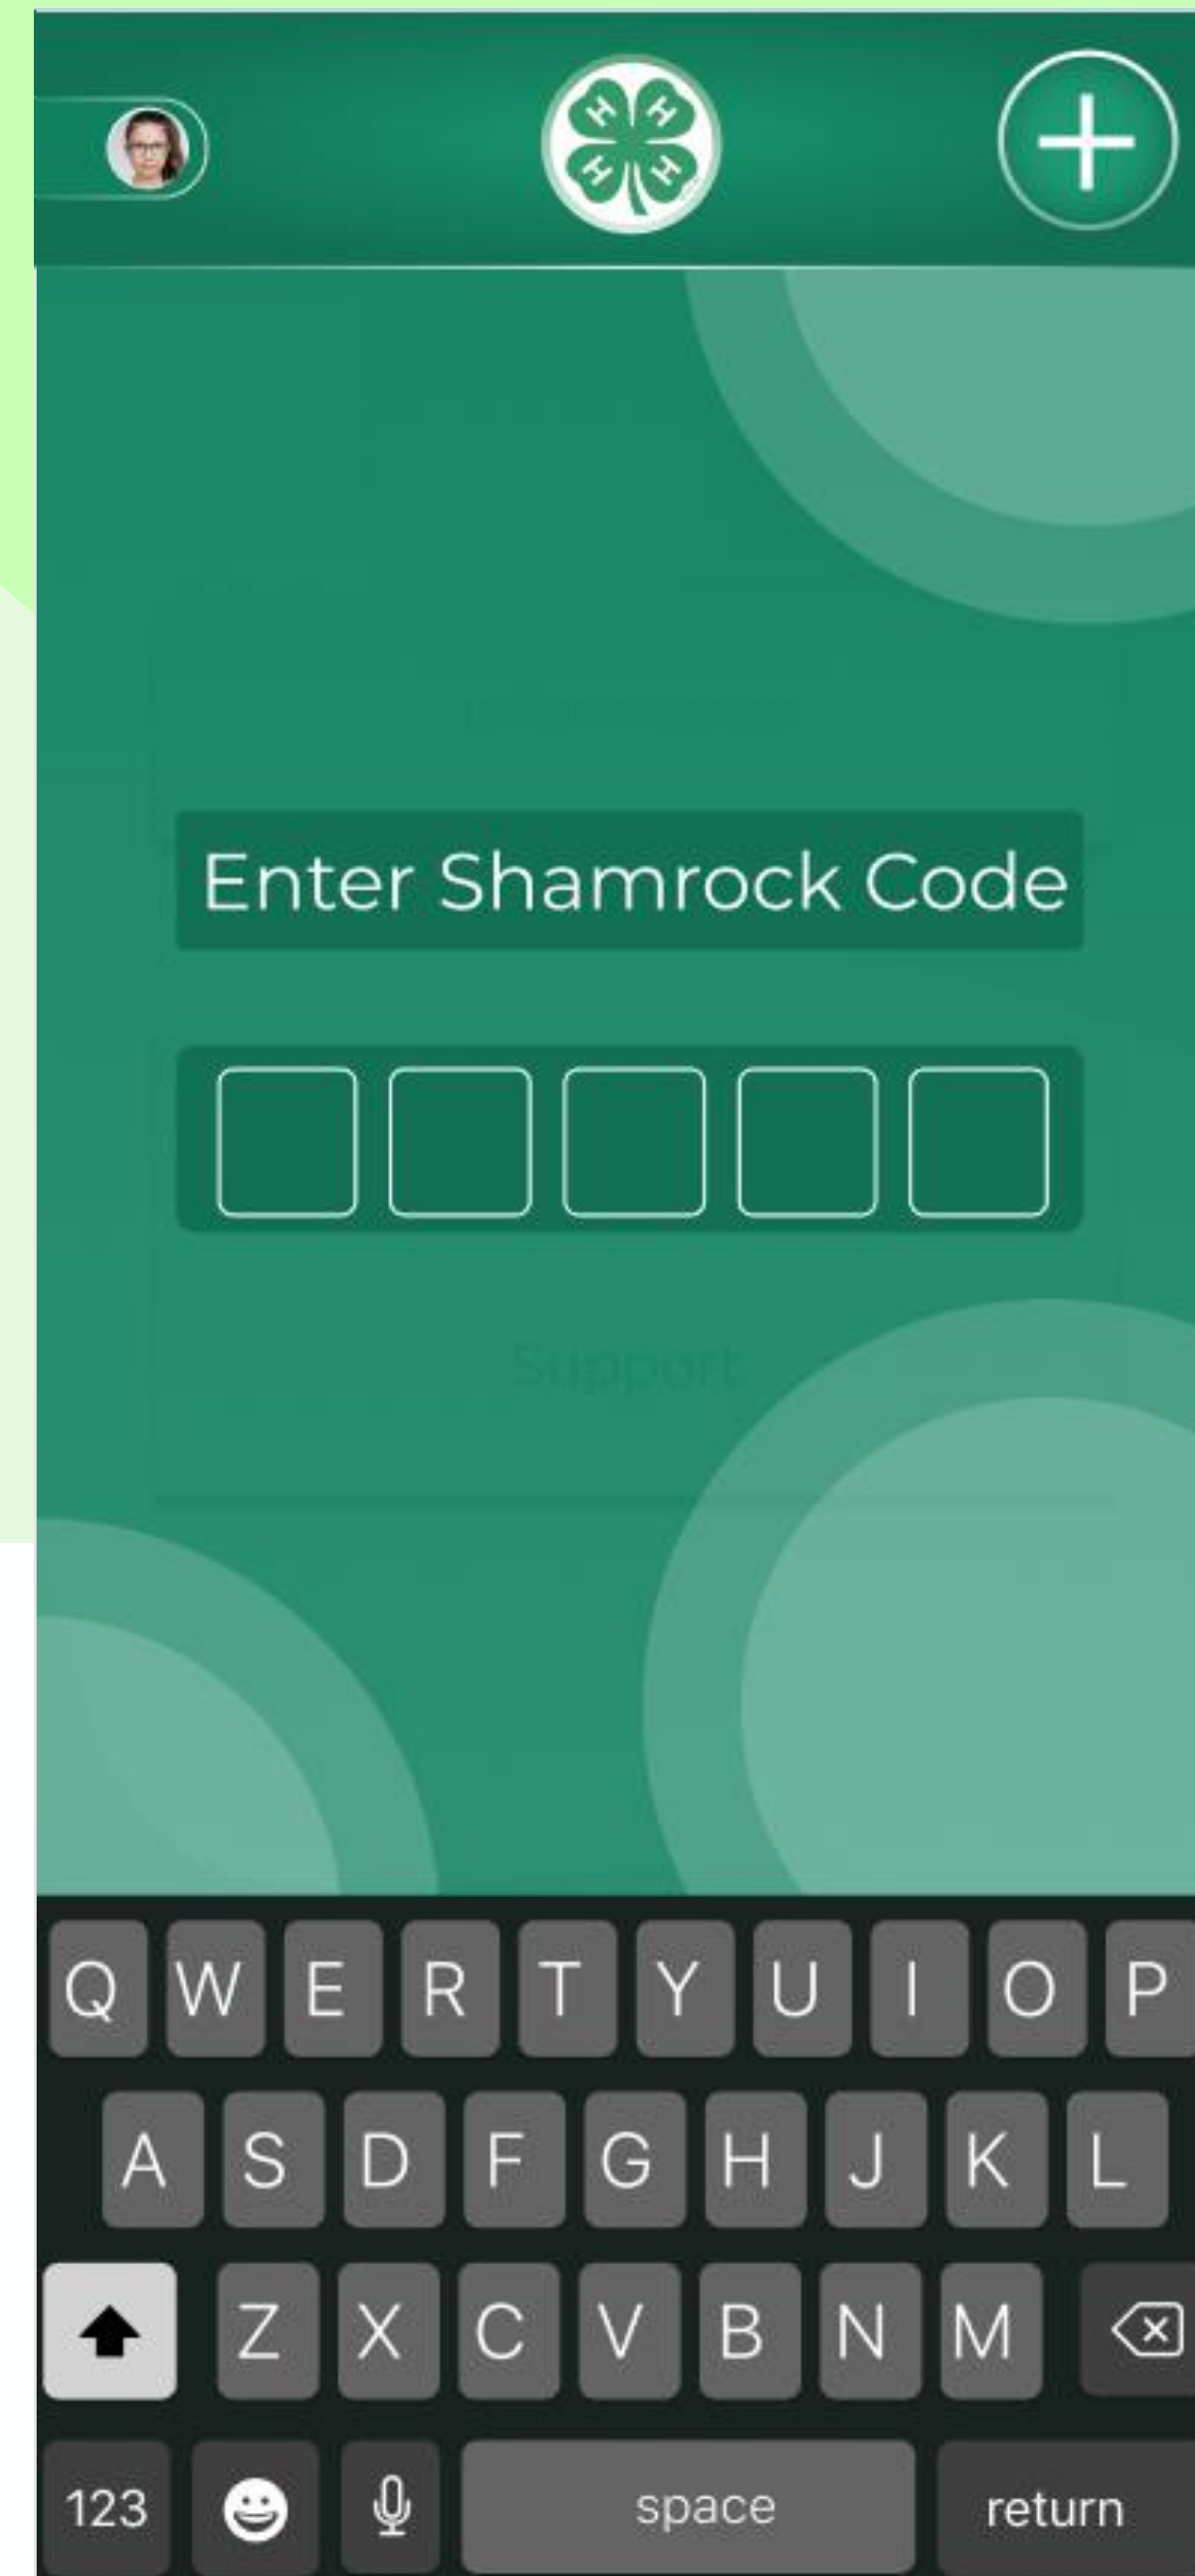

Acknowledgement

# Shamrock Code

 Teens can enter a 5 digit code in order to join a Shamrock Group. There are individual groups for each 4h team.

 The circle icon at the top represents a group.

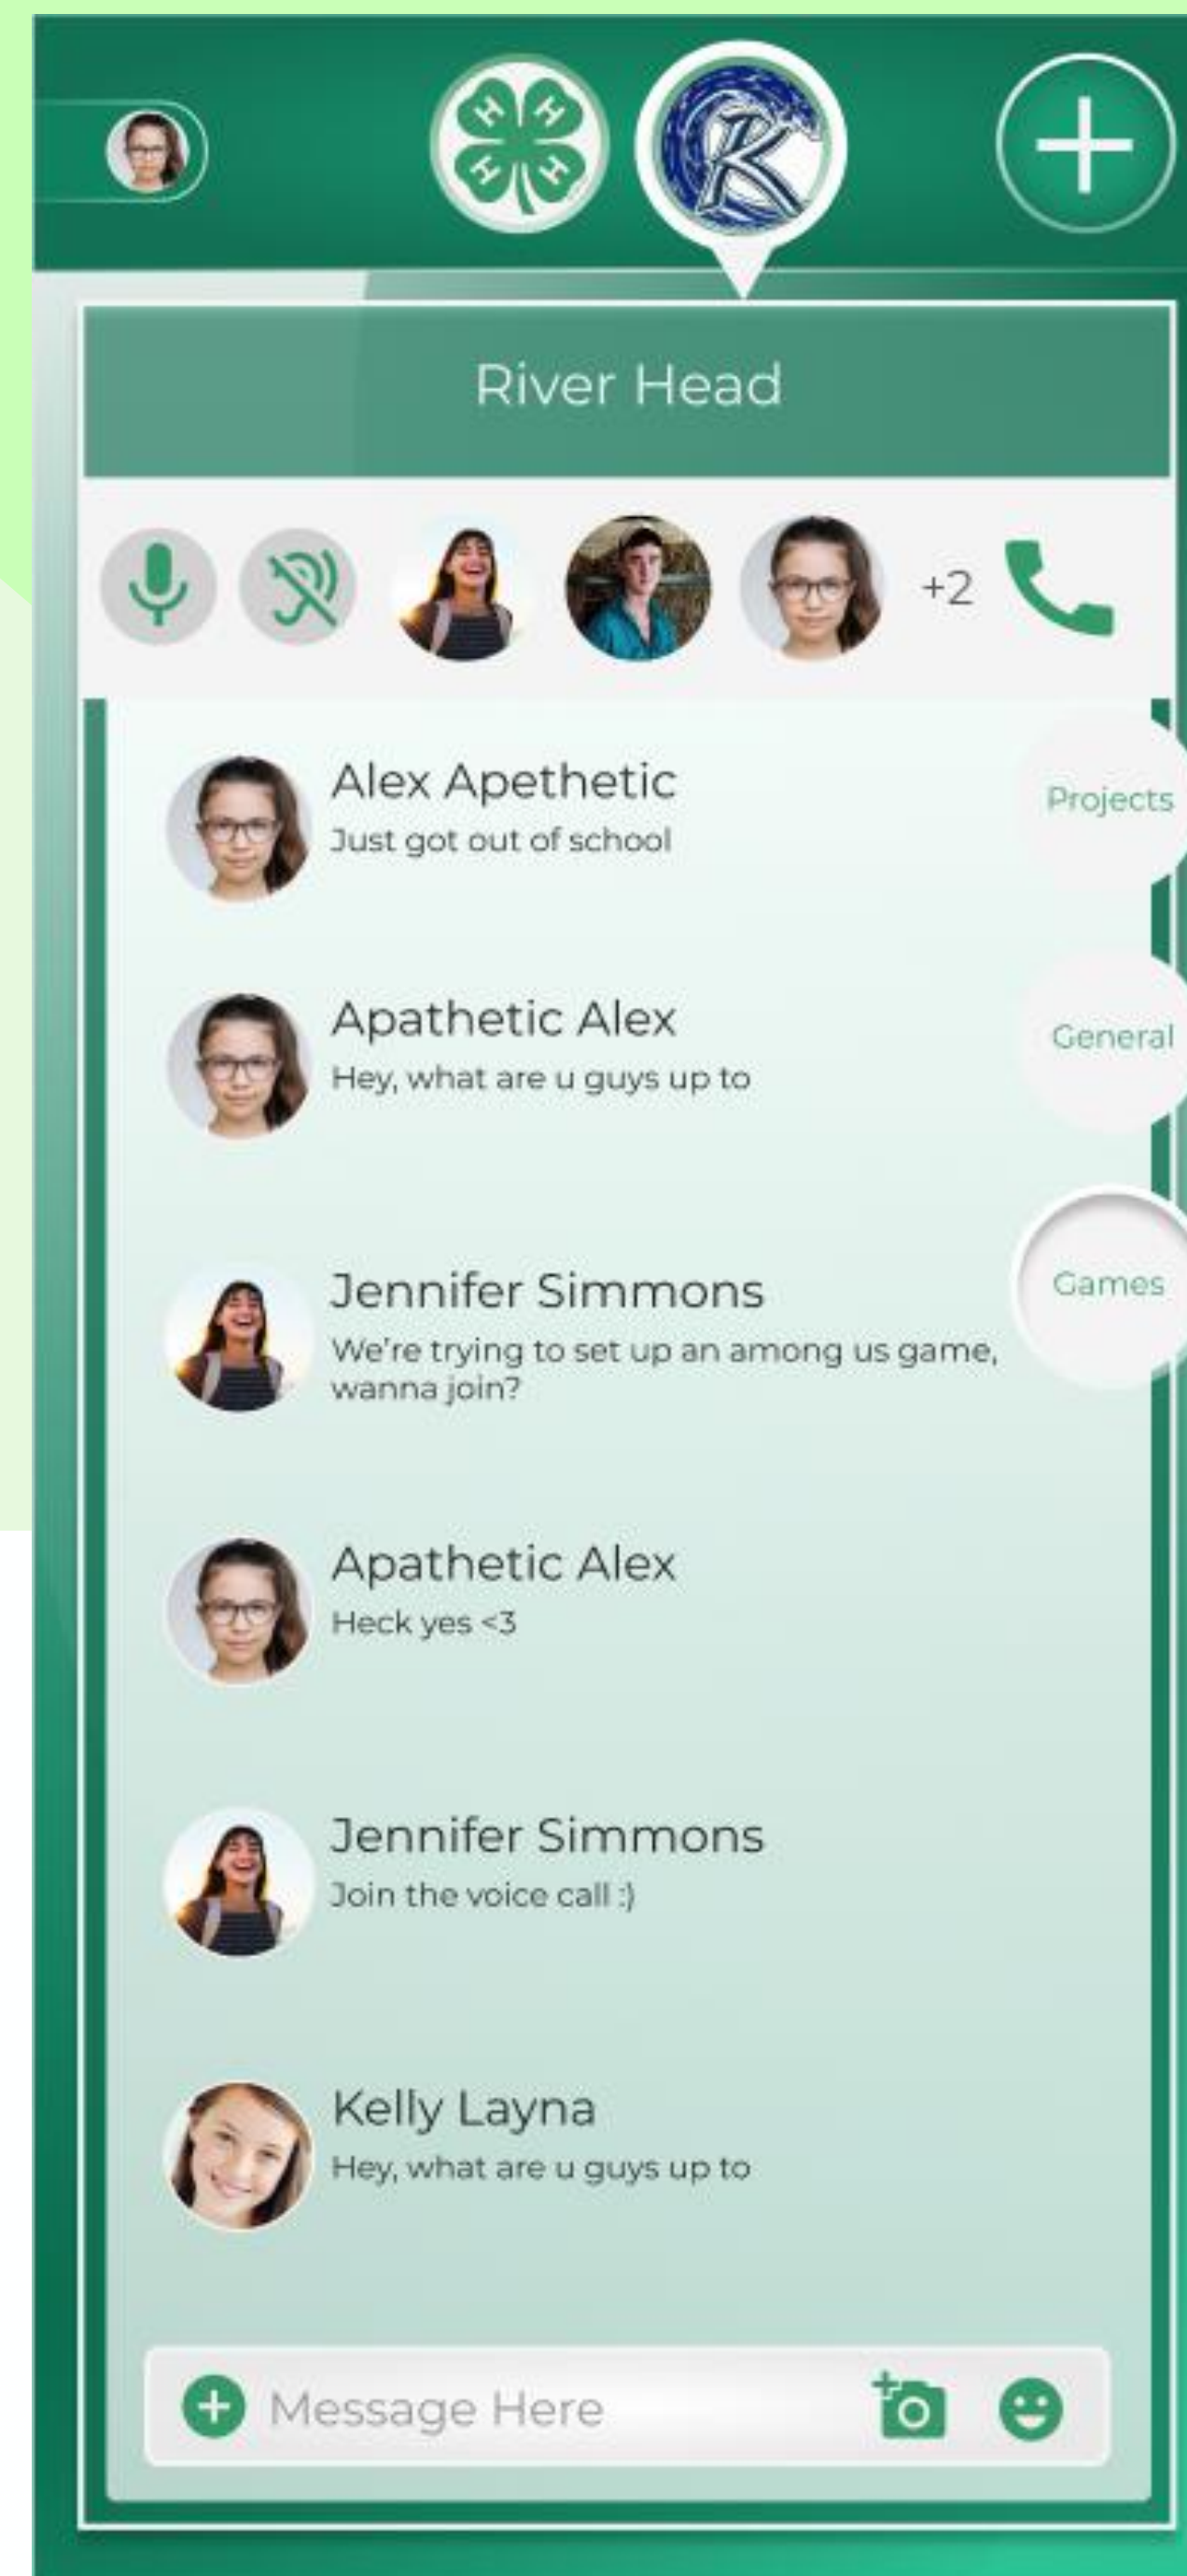

Acknowledgement

# Shamrock Groups

 This is where the kids will mainly be hanging out. Kids can share the code so that people can enter.

 There are text chats to the right and the voice call is always displayed at top.

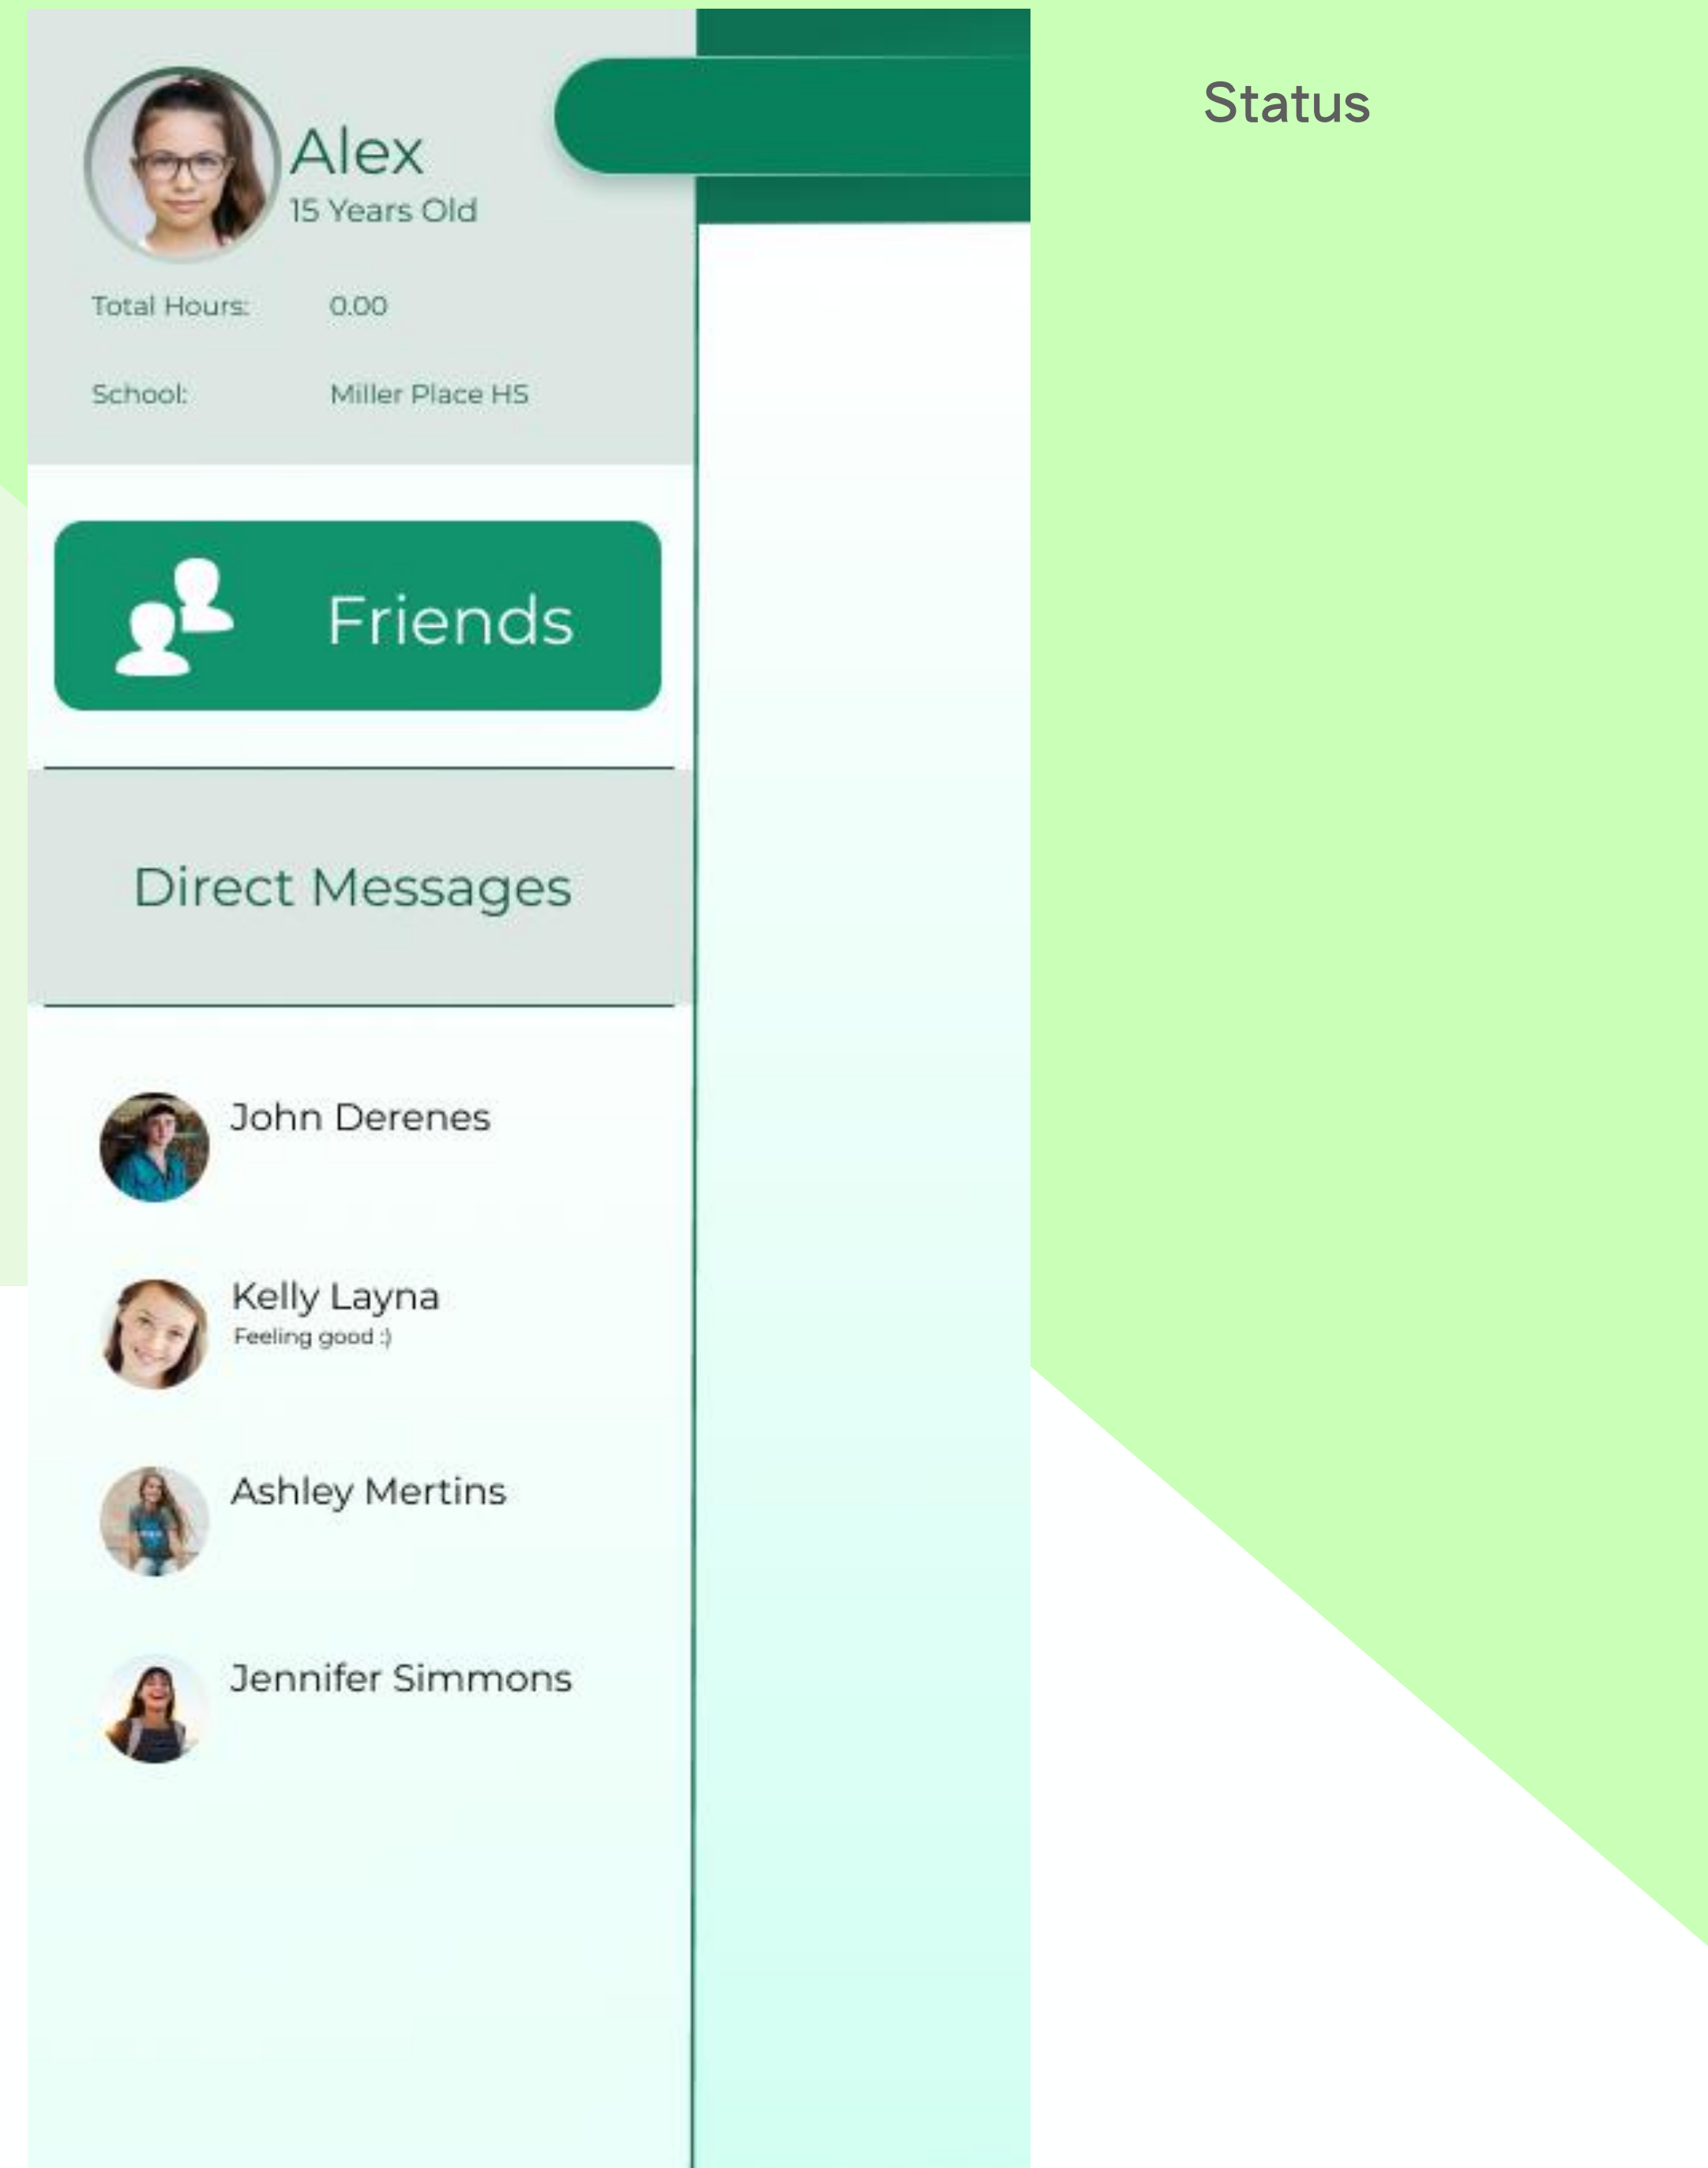

Inclusion

# Profile's function

 Profiles will not only show information about the student, but how many hours they have volunteered. Also their status as a member of 4H.

 It will also show where to access friends and direct messages. Sometimes kids will want to privately message each other rather than speaking in a group chat.

# Conclusion

The way that high schoolers maintain their interest and investment in the 4H program is by having a platform to interact with the group members even if they live in different schools. The goal is to prove to the kids that the 4H program is worth investing their time into for the fun memories and opportunities it will provide them.

If this sort of interaction works for people who live millions of miles away it will work for people who live half an hour away.

# Future Work

In the future, we would like to analyze the behaviors that teens make on Connect4 and use it to improve the quality of the service. We'd want to shift our focus to what teens enjoy about the 4H program and work with them to constantly update the app to keep up with the purposes that the organization and students need it for.
